

3 Sections Excavator Telescopic Boom Dipper Arm With 0.4cbm To 2.5cbm Bucket

Our Product Introduction

for more products please visit us on excavatorlongarm.com

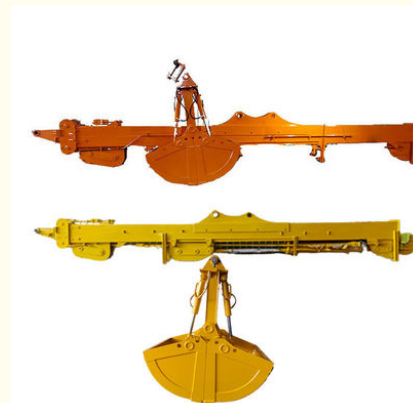

Basic Information

- Place of Origin: China
- Brand Name: Zhonghe Machinery
- Certification: Patents
- Model Number: SSB0120
- Minimum Order Quantity: 1 piece / set
- Price: USD 100.00-USD7800.00
- Packaging Details: Bubble / wooden cases
- Delivery Time: 7 days-20 days
- Payment Terms: T/T, L/C, or others as you request
- Supply Ability: 5 sets per week

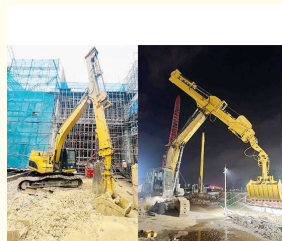

Product Specification

- Model: SSB0120
- Compatibility: Fits Various Brand Of Excavators
- Warranty: 6 Months
- Bucket Capacity: 0.4cbm, 0.6cbm, 1.5cbm, 2.2cbm, 2.5cbm
- Type: Excavator Attachment
- Number Of Sections: 3 Sections
- Maximum Reach: 32 Meters
- Material: BS900E (lighter And Stronger)
- Highlight: **3 Sections Excavator Telescopic Boom, 2.5cbm Bucket Dipper Telescopic Arm, 3 Sections Dipper Telescopic Arm**

Product Description

3 Sections Telescopic Boom Excavator Dipper Arm With 0.4cbm To 2.5cbm Bucket

Brief Description:

The bucket capacity of this telescopic arm is available in a range of sizes, including 0.4cbm, 0.6cbm, 1.5cbm, 2.2cbm, and 2.5cbm. This wide variety of sizes makes it easy to find the perfect fit for your specific needs. From smaller, more precise tasks to larger, more heavy-duty ones, this telescopic excavator arm is designed to handle it all.

In addition to its impressive performance capabilities, this excavator telescopic arm is also backed by a 6-month warranty. This gives you the peace of mind you need to confidently use this product. Excavator Telescopic Boom Telescopic Arm is versatility tool in construction work.

Product Features:

Our product boasts several features that enhance its efficiency and durability.

Premium Material: Made from BS900E, our product is lighter and stronger than its counterparts. It is not easy to crack, hence the longer life-span.

Deeper Digging Depth: Our product is capable of reaching depths that range from 25m to 32m. This makes it more efficient for digging and excavation projects.

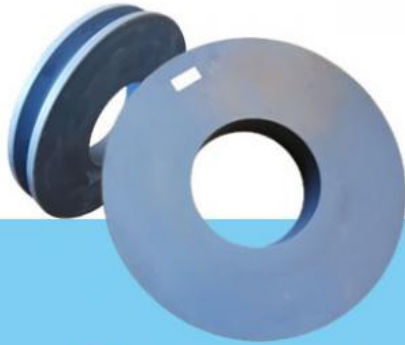

Suitable for Various Excavator Brands: Our product is versatile and can fit various brands of excavators.

Compatible with Different Types of Buckets: Our product can be equipped with different types of buckets such as clamshell bucket, standard bucket, Orange Peel Grab, or other grabs. This makes it adaptable for various excavation tasks.

Wire Rope: Our multi-strand wire rope is engineered to bear greater tension and impact force.

Pulley: We've built our pulley system with MC steel which is just as hard as steel but is lighter and more wear-resistant. Additionally, the wheel diameter is enlarged to withstand greater loads.

Bearings: Our product uses high-speed, heavy-load bearings with larger diameters to handle bigger loads.

MC Steel

✓ The pulley is made of MC steel, which has the same hardness as steel, but is light and wear-resistant. The wheel diameter is enlarged to withstand greater loads.

High-speed Heavy-load Bearings

✓ The bearings are high-speed heavy-load bearings, and the bearings use larger diameters to withstand greater loads.

Multi-strand Wire Rope

✓ The inner core of the wire rope is a steel core, which has higher tensile strength.

Applications:

Suitable for digging a deep basement
Grabbing Sand, Soil, Silt, Gravel, etc

The digging of a deep basement is just one of the many possible applications for this versatile tool. With its sturdy construction and powerful grip, it is capable of tackling even the most difficult excavation jobs. Whether you are digging for a new construction project or simply need to remove a large amount of earth from your property, this tool is up to the task.

Another useful application for this tool is grabbing various types of loose materials such as sand, soil, silt, and more. Its powerful claws can easily grab and hold onto these materials, allowing for easy transportation and disposal. This makes it an ideal tool for landscaping projects, construction sites, and more.

Feedback from Clients

from Jimmy:
cool, the telescopic boom
works effectively. suitable for
grabbing.

from Michael:
suitable for digging caisson.
save energy.

from Tonny:
Very excellent telescopic boom.
on my excavator suitably. perfect

from Tom:
The boom works very good.
safe and balanced operation
very nice service.
