## Product Description

### Product Description:

The hydraulic system is perfect for those who want to save time, as it allows for quick changes without having to get out of the excavator. On the other hand, the manual option is great for those on a budget who still want the convenience of a quick hitch. Whether you have a mini excavator or a larger machine, the Excavator Quick Hitch is suitable for excavators ranging from 1-50T. This product is compatible with a variety of different excavator models, making it a versatile addition to any job site. The hydraulic quick hitch coupler is a key feature of this product, allowing you to easily switch between different attachments. This feature is especially useful when you need to switch between buckets, hammers, and other attachments. The coupler is designed to be durable, with a strong construction that can withstand heavy use on the job site. In summary, the Excavator Quick Hitch is an essential product for any excavation job. With its mechanical quick change and hydraulic quick hitch options, it is suitable for a range of excavator machines. The powerful hydraulic system and durable hydraulic quick hitch coupler make it easy to switch between different attachments, saving you time and effort on the job site.

### Applications:

With this product, you can easily change attachments quickly and safely, saving you time and effort. The hydraulic system of the quick hitch is easy to operate, and it allows you to switch between different attachments in a matter of seconds.

The Excavator Quick Hitch is perfect for construction projects, such as digging, grading, demolition, and more. It is a versatile and essential tool for any construction site. The product is brand new and comes with a minimum order quantity of 1 piece/set. The price ranges from USD 99-2999, depending on the model and specifications.

At Zhonghe Machinery, we prioritize the quality of our products, and we ensure that each product undergoes strict quality control before reaching our customers. The packaging of the product is bubble/wooden cases, ensuring that the product is delivered to you in excellent condition.

We understand that time is of the essence in the construction industry, and that is why we ensure that the delivery time is only 3-7 days. We also offer multiple payment options, such as T/T, L/C, or others as requested. Additionally, we have a supply ability of 50 sets per week to ensure that we meet the demands of our customers.

In conclusion, the Excavator Quick Hitch is a product that is essential for any construction project. It is efficient, safe, and versatile, making it perfect for any construction site. Zhonghe Machinery offers the KH012 model mini excavator quick coupling, which is made in China, comes with patents, and is of the highest quality.
