

360 Degrees Rotation Angle Hydraulic Grapple Less Maintenance

Our Product Introduction

for more products please visit us on excavatorlongarm.com

Basic Information

- Place of Origin: China
- Brand Name: Zhonghe Machinery
- Certification: Patents
- Model Number: HG010
- Minimum Order Quantity: 1 piece / set
- Price: USD 199 - 5999
- Packaging Details: Bubble / wooden cases
- Delivery Time: 3 days - 15 days
- Payment Terms: T/T, L/C, or others as you request
- Supply Ability: 15 sets per week

Product Specification

- Rotation Angle: 360 Degrees
- Package: Wooden Case Packing / Bubble
- Cylinder: 2 Cylinders
- Oem: OEM Services Provided
- Quality Control: 100% Inspection Before Shipment
- Maintenance: Less Maintenance
- Suitable Excavator Model: 4-55tons
- Rotating: 360 Degree
- Highlight: 360 rotation hydraulic grapple, low maintenance hydraulic grapple, hydraulic grapple with warranty

Product Description

Product Description:

One of the best features of this hydraulic wood grapple is its 360-degree rotating capability. This means that operators can easily maneuver the grapple to pick up and drop off materials from any angle, making it a versatile and flexible tool for any job site. The rotating function also allows for more precise and efficient handling of materials, reducing the risk of damage and improving overall productivity. Another advantage of this hydraulic wood grapple is that it requires less maintenance compared to other types of grapples. With fewer moving parts and a simple hydraulic system, it is more durable and less prone to wear and tear. This means that operators can spend more time on the job and less time on maintenance and repairs.

At the manufacturing stage, this hydraulic grapple undergoes 100% inspection before shipment to ensure that it meets the highest standards of quality control. This gives customers peace of mind knowing that they are getting a reliable and safe product that will perform well on the job site.

In conclusion, the Hydraulic Grapple is a reliable and efficient tool for handling heavy loads of wood, rocks, and other materials. Its 360-degree rotating capability and strong gripping force make it a versatile and flexible tool for any job site, while its low maintenance requirements and high-quality control ensure that it is a durable and reliable investment for any business.

Applications:

The product is suitable for various applications in the industries, such as forestry, construction, and demolition. It is used to handle a variety of materials such as logs, stones, and debris. The hydraulic rotating grapple is perfect for loading and unloading trucks, sorting and stacking materials, and clearing debris from job sites.

The hydraulic grapple rotator is ideal for use in scrapyards, where it can be used to sort and separate different materials such as metals, plastics, and paper. It is a versatile tool that can be used in a wide range of scenarios, including construction sites, forestry operations, and farming.

The Zhonghe Machinery hydraulic grapple rotator is a low-maintenance product that requires less care and upkeep to ensure its longevity. It is a durable and robust machine that is designed to withstand heavy use in harsh environments.

The product comes with OEM services provided, ensuring that it can be customized to meet the specific needs of the user. It is available for purchase with a minimum order quantity of one piece/set, at a price range of USD 199 - 5999. The product is well-packaged in bubble/wooden cases, ensuring that it is safe and secure during transportation.

Delivery time ranges from 3 days to 15 days, depending on the location and quantity of the order. Payment terms include T/T, L/C, or others as requested by the buyer. The product has a supply ability of 15 sets per week, ensuring that it can meet the demand of the market.

Before shipment, the hydraulic grapple rotator undergoes 100% inspection to ensure it meets the required quality control standards. The Zhonghe Machinery hydraulic grapple rotator is a valuable addition to any job site, providing an efficient and effective means of handling materials.

Customization:

Support and Services:

Our Hydraulic Grapple product comes with comprehensive technical support and services to ensure its optimal performance and longevity. Our team of experienced technicians and engineers are available to provide assistance with installation, maintenance, and troubleshooting. We also offer training programs to help your operators get the most out of the grapple and to ensure safety compliance. Additionally, we provide spare parts and repair services to keep your grapple running smoothly. Contact us to learn more about our technical support and services for our Hydraulic Grapple product.

Packing and Shipping:

Product Packaging:

The hydraulic grapple will be securely packaged in a sturdy cardboard box to prevent any damage during shipping. The box will also contain foam inserts to provide additional protection to the product.

Shipping:

The hydraulic grapple will be shipped via a reliable carrier service to ensure timely and safe delivery. Shipping charges will be calculated based on the destination and weight of the package. Customers will receive a tracking number to monitor the delivery status of their package.

FAQ:

Q: What is the brand name of the hydraulic grapple?

A: The brand name of the hydraulic grapple is Zhonghe Machinery.

Q: What is the model number of the hydraulic grapple?

A: The model number of the hydraulic grapple is HG010.

Q: Where is the hydraulic grapple manufactured?

A: The hydraulic grapple is manufactured in China.

Q: What certifications does the hydraulic grapple have?

A: The hydraulic grapple has patents certifications.
Q: What is the minimum order quantity for the hydraulic grapple?
A: The minimum order quantity for the hydraulic grapple is 1 piece/set.
Q: What is the price range for the hydraulic grapple?
A: The price range for the hydraulic grapple is USD 199 - 5999.
Q: What are the packaging details for the hydraulic grapple?
A: The packaging details for the hydraulic grapple are bubble/wooden cases.
Q: What is the delivery time for the hydraulic grapple?
A: The delivery time for the hydraulic grapple ranges from 3 days to 15 days.
Q: What payment terms are available for the hydraulic grapple?
A: The payment terms available for the hydraulic grapple are T/T, L/C, or others as you request.
Q: What is the supply ability for the hydraulic grapple?
A: The supply ability for the hydraulic grapple is 15 sets per week.
