

360 Degrees Rotation Angle Hydraulic Grapple with 2 Cylinders OEM Services Provided

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Zhonghe Machinery
- Certification: Patents
- Model Number: HG010
- Minimum Order Quantity: 1 piece / set
- Price: USD 199 - 5999
- Packaging Details: Bubble / wooden cases
- Delivery Time: 3 days - 15 days
- Payment Terms: T/T, L/C, or others as you request
- Supply Ability: 15 sets per week

Product Specification

- Rotation Angle: 360 Degrees
- Maintenance: Less Maintenance
- Oem: OEM Services Provided
- Quality Control: 100% Inspection Before Shipment
- Package: Wooden Case Packing / Bubble
- Rotating: 360 Degree
- Suitable Excavator Model: 4-55tons
- Cylinder: 2 Cylinders

Product Description

Product Description:

The hydraulic rotating grapple features two cylinders for maximum holding power and durability. This ensures a firm grip on even the toughest materials, making it ideal for heavy-duty applications. Additionally, this hydraulic grapple is subjected to a rigorous quality control inspection process before shipment to ensure that it meets the highest standards of quality and performance.

With OEM services provided, customers can customize their hydraulic rotating grapple to meet their specific needs. This includes modifications to the design, performance, and functionality of the hydraulic grapple. This ensures that each customer receives a product that is tailored to their exact requirements, resulting in a more efficient and effective operation.

In summary, the Hydraulic Rotating Grapple is a must-have tool for any construction, demolition, or recycling project. With its 360-degree rotating capabilities, two cylinders for maximum holding power, and OEM services provided, this hydraulic grapple is versatile, durable, and customizable to meet the needs of any project. And with a 100% inspection before shipment, customers can be confident that they are receiving a high-quality product that will perform to their expectations.

Applications:

The grapple hydraulic system is perfect for use in construction projects, demolition sites, forestry, and even recycling plants. It is a must-have for any heavy machinery operator that needs to lift and move large amounts of debris or materials.

The excavator grapple rock grab stone grab hydraulic system is designed to rotate a full 360 degrees, making it easy to position and maneuver objects. This product is perfect for picking up and moving rocks, logs, and other heavy objects.

Zhonghe Machinery's Hydraulic Grapple product has been patented, ensuring that it is of the highest quality and is built to last. It has also been certified by industry experts, giving customers peace of mind that they are getting a reliable product.

The minimum order quantity for this product is 1 piece or set, and it is priced between USD 199 - 5999, depending on the model. It is packaged in bubble or wooden cases and can be delivered within 3-15 days. Payment terms include T/T, L/C, or others as requested by the customer. The supply ability is 15 sets per week, and OEM services are provided.

In summary, the Zhonghe Machinery HG010 Hydraulic Grapple is a highly efficient and reliable product that is perfect for a variety of scenarios. Its 360-degree rotation angle and 2 cylinder design make it easy to position and maneuver heavy objects. It is a must-have for any heavy machinery operator that needs to lift and move large amounts of debris or materials.

Customization:

Support and Services:

The Hydraulic Grapple is a heavy-duty attachment designed for excavators, backhoes and skid steers. It is used for picking up and moving various types of materials in construction, demolition, landscaping and forestry applications.

Our technical support team is available to assist with any questions or issues related to the Hydraulic Grapple. We can provide guidance on installation, operation and maintenance of the product to ensure optimal performance and longevity.

In addition to our technical support, we offer a range of services for the Hydraulic Grapple, including:

Customization options to suit specific requirements

Repair and maintenance services to keep the product in top condition

Training and education on the proper use and care of the Hydraulic Grapple

Replacement parts and accessories to enhance the functionality of the product

Our commitment to quality and customer satisfaction is reflected in the level of support and services we provide for the Hydraulic Grapple.

Packing and Shipping:

Product Packaging:

Hydraulic Grapple

Instruction Manual

Mounting Hardware

Shipping:

Ships within 2-3 business days

Free standard shipping within the United States

International shipping available at an additional cost

Tracking number provided

FAQ:

Q: What is the brand name of the hydraulic grapple?

A: The brand name of the hydraulic grapple is Zhonghe Machinery.

Q: What is the model number of the hydraulic grapple?

A: The model number of the hydraulic grapple is HG010.

Q: Where is the hydraulic grapple manufactured?

A: The hydraulic grapple is manufactured in China.

Q: What certifications does the hydraulic grapple have?

A: The hydraulic grapple has patents certification.

Q: What is the minimum order quantity for the hydraulic grapple?

A: The minimum order quantity for the hydraulic grapple is 1 piece/set.

Q: What is the price range for the hydraulic grapple?

A: The price range for the hydraulic grapple is USD 199 - 5999.

Q: What are the packaging details for the hydraulic grapple?

A: The packaging details for the hydraulic grapple are bubble/wooden cases.

Q: What is the delivery time for the hydraulic grapple?

A: The delivery time for the hydraulic grapple is 3 days - 15 days.

Q: What are the payment terms for the hydraulic grapple?

A: The payment terms for the hydraulic grapple are T/T, L/C or other methods as requested.

Q: What is the supply ability for the hydraulic grapple?

A: The supply ability for the hydraulic grapple is 15 sets per week.
