

OEM 360 Degrees Rotation Hydraulic Grapple For 4-55tons Excavator

Our Product Introduction

for more products please visit us on excavatorlongarm.com

Basic Information

- Place of Origin: China
- Brand Name: Zhonghe Machinery
- Certification: Patents
- Model Number: HG010
- Minimum Order Quantity: 1 piece / set
- Price: USD 199 - USD 5999
- Packaging Details: Bubble / wooden cases
- Delivery Time: 3 days - 15 days
- Payment Terms: T/T, L/C, or others as you request
- Supply Ability: 15 sets per week

Hydraulic Grapple

High-effective & Save Energy

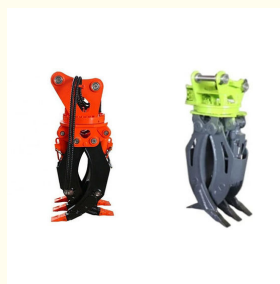

Product Specification

- Oem: OEM Services Provided
- Rotation Angle: 360 Degrees
- Quality Control: 100% Inspection Before Shipment
- Suitable Excavator Model: 4-55tons
- Cylinder: 2 Cylinders
- Rotating: 360 Degree
- Warranty: 3 Months
- Package: Wooden Case Packing / Bubble
- Highlight: 360 Degrees Rotation Hydraulic Grapple,
OEM Hydraulic Grapple For Excavator,
360 Degrees Rotating Excavator Grab

Product Description of hydraulic excavator grapple:

Hydraulic excavator grapple comes with a 360-degree rotating feature, allowing for easy maneuverability and efficient operation. The 2-cylinder hydraulic system ensures powerful gripping force and durability, making our hydraulic grapple excavator attachment a reliable choice for all your construction needs.

Hydraulic Grapple is designed with a 360-degree rotation angle, allowing users to easily grab and move materials in any direction. The grapple's 2-cylinder hydraulic system ensures maximum gripping force for even the toughest of materials, making it perfect for use in logging and construction industries.

Hydraulic rotating grapple comes in a wooden case packing or bubble packaging, ensuring safe transportation and delivery. With its versatility and durability, excavator grapple rock grab stone grab hydraulic is the perfect addition to any construction operation, improving efficiency and productivity.

Hydraulic Grapple

High-effective & Save Energy

Applications:

The packaging details for this hydraulic grapple rotating excavator include bubble/wooden cases, ensuring that it is protected during transportation. Delivery time ranges from 3 days to 15 days, depending on the location and quantity ordered. Payment terms are flexible and can be arranged to suit individual needs, with options such as T/T, L/C, or others available.

One of the key features of Hydraulic Grapple Excavator is its 360-degree rotating capabilities, which makes it perfect for a wide range of applications. Its two cylinders provide a powerful grip, making it ideal for handling heavy materials such as logs, scrap metal, and waste materials. The grapple's OEM services provide customers with the option to customize the product to their specific needs and requirements. Some of the application scenarios for this hydraulic grapple include waste management, forestry, construction, and demolition. In waste management, the grapple can be used to collect and transport large amounts of waste materials, while in forestry, it is used to lift and move logs and other forestry products. In construction and demolition, the grapple can be used to handle heavy materials such as concrete and steel. Quality control is an essential part of the production process for the hydraulic grapple rotator, with 100% inspection carried out before shipment. With a supply ability of 15 sets per week, this product is readily available to meet the needs of businesses in various industries. The wooden case packing/bubble packaging ensures that the product is protected during transportation, reducing the risk of damage or loss.

Production Advantages

01 >>

Panel is cut by
CNC plasma
machine with
less deformation

<< 02

Tolerance within
5-10um, ensure
the accuracy of
hole

03 >>

GMAW-Gas
Metal Arc
Welding

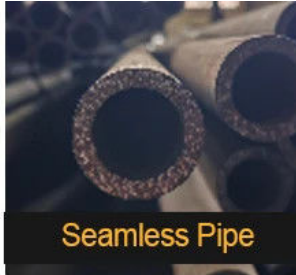

« 04

Environmentally friendly verified spraying room. Professional and beautiful paint finish

Certified Steel

Seamless Pipe

40MuCr Pins

Graphite Sleeve

Customization:

The packaging details include bubble and wooden cases, and the delivery time ranges from 3 days to 15 days. We accept payment terms such as T/T, L/C, or others upon request. Our supply ability is 15 sets per week, and the rotation angle is 360 degrees, making it suitable for excavator models between 4-55 tons.

The package includes wooden case packing or bubble wrapping, and the hydraulic excavator grapple requires less maintenance. It can rotate 360 degrees, making it perfect for all your needs. Contact us today to customize your hydraulic grapple!

Hydraulic Grapple

High-effective & Save Energy

Support and Services:

The Hydraulic Grapple product technical support and services include:
Installation and set-up assistance
24 Hour service available

Packing and Shipping:
Product Packaging:

The hydraulic grapple will be securely packed in a wooden box to prevent any damage during shipping.

Shipping:

The product will be shipped via a reputable courier service to ensure timely and safe delivery.

Customers will be provided with a tracking number to monitor the progress of their shipment.

The shipping cost will be calculated based on the destination and weight of the package.

Delivery times may vary depending on the location of the customer.

Established in 2018, Kaiping Zhonghe Machinery is a combination of manufacturing and trading. Our products, including excavator long reach booms, demolition arms, 2-3 sections telescopic arms, tunnel arms, standard/rock buckets, grapples, and rippers, have been selling well in more than 40 countries and areas.

We are located in Guangdong Province, China. A 18000 m² 50 welding workers with over 7 years experience, 30 senior designers, and a high-tech R&D team (10+ years on customization, 100+ technical patents), strict production system (6+ years quality control and cost control) and warm-hearted service team. Our annual output of various types of excavator boom arms can reach up to 600 sets.

We strive to uphold our core principles of "Merit Quality, Sincerity Management, and Customer Satisfaction".

FAQ:

Q1: What is the biggest advantages of the hydraulic grapple?

A1: Easy Operation, High-effective, Safe, Save Energy, Longer Life-span

Q2: What's the delivery time of one set of hydraulic grapple rotator?

A2: The delivery time is about 5 days.

Q3: Which payment terms are accepted?

A3: We accept T/T payment, L/C payment, or others as you request.
