

## High Precision Excavator Tunnel Boom Shortened Arm Excavator Attachments

Our Product Introduction

for more products please visit us on excavatorlongarm.com

### Basic Information

- Place of Origin: China
- Brand Name: Zhonghe Machinery
- Certification: CE, patent, ISO
- Model Number: SDB0013
- Minimum Order Quantity: 1 set / piece
- Price: USD 190.00 - USD5990.00
- Packaging Details: bubble or wooden case
- Delivery Time: 6-35/works
- Payment Terms: T/T, L/C
- Supply Ability: 7 sets per week

### Product Specification

- Material: Shaogang Q355B
- Apply To: 6 Ton - 50 Ton Excavator
- Key Word: Excavator Tunnel Arm / Excavator Short Arm
- Suitable Working Condition: Tunnel Construction Work, Work In Narrow Places
- Warranty: 6 Months
- Cylinders: Enlarge Cylinders
- Plate Thickness: Thicker
- Color: Customized
- Highlight: **High Precision Excavator Tunnel Boom, Tunnel Excavator Shortened Arm, Excavator Attachments Shortened Arm**

## Product Description

### Strength Excavator Tunnel Arm for Sale Excavator Shorten Arm with Standard Bucket Breaker for Digging Tunnel In Narrow Places

Here is our product catalog: [2024 Zhonghe Machinery--Product Catalog.pdf](#)

#### Brief Discription of one set of Excavator Tunnel Arm / Excavator Tunnel Boom:

High Strength: The plate thickness is enhanced and reinforced.

High Precision: We have double-side boring machine, CNC plasma cutting machine and other precision production machines. The production procedure is high guaranteed. Our staffs know every details of producing. Under strict supervision, the excavator tunnel arm is full tested before sending to clients.

Lessen damage: the tunnel arm with protection cover which can prevent it from damage.

Key word: excavator shorten boom and arm, excavator tunnel arm / shorten arm, etc

## Stronger

### Save energy & High-effective

✓ Digging rock

✓ Digging hard soild

#### Excavator Tunnel Arm's Description:

The excavator tunnel arm for sale is specifically designed for digging in tunnels or other confined spaces. Unlike standard arms, excavator tunnel arm features a more compact design, allowing for greater maneuverability. Excavator shorten boom and arm can be equipped with larger attachments, such as larger buckets or breakers, to suit various tasks. This customizable tunnel arm tunnel boom is built to be more robust than standard options, meeting the demanding requirements of tunnel work and the challenges posed by hard sand and rock. To ensure durability, the plate thickness of the excavator tunnel arm has been reinforced, enhancing its longevity and performance in tough conditions.

**Euipeud with Larger Attachments:** enlarge bucket / breaker, etc

#### Specification:

Excavator Model ( ton)	Plate Thickness (mm)	Weight (kgs)
6-8 ton	10mm	590kgs 380kgs
10-15 ton	14mm	1130kgs 900kgs
20-24 ton	16mm	1300kgs 1050kgs
30-36 ton	25mm	2900kgs 2600kgs
45-50 ton	30mm	3200kgs 3000kgs

Enlarge bucket cylinder, enlarge stick cylinder.

#### Production Process of excavator tunnel arm:

- \* We are armed with experienced staffs, every staffs are full trained before going to work.
- \* Every plate is beveled before welding. By doing so, the welding is strong enough and not easy cracking.
- \* Professional Testing, every procedure is under strict supervision and full tested before sending goods.

## Tunnel boom

- Meets the needs for powerful machines on rock breaker projects in confined tunnels
- A true customised reliable performer, with robust cylinder guard,,capable of break rock more effective, and with significantly smaller footprint.

## High effectiveness

1. On the same machine, tunnel arm can obtain greater lifting capacity than standard arm.
2. Opening angle between boom and arm can reach 180 degrees

## Robust structure

## Robust structure

1. The upper and lower cover plates are thicker.
2. The arm is filled with iron sand to reduce vibration
3. Robust cylinder guard

## Avoid oil leakage

1. Stop valves prevent oil leakage when replacing breaker by bucket.
2. Multi-layer welding for pipe connectors

## Long service life

1. Cylinder protective cover design
2. Q355B material, high-quality accessories, full weld, reinforced stress position, etc.

## Pivot end

HD Boom with pivot end reinforcement Single piece design & thicker steel plates

### [Team Show of Zhonghe Machinery:](#)

We are a big manufacturer of excavator attachments. We are professional in designing and producing and knowing every steps of producing.

If you have any question concerning excavator tunnel arm. Welcome to contact and leave your message.

Established in 2018, Kaiping Zhonghe Machinery is a combination of manufacturing and trading. Our products, including excavator long reach booms, demolition arms, 2-3 sections telescopic arms, tunnel arms, standard/rock buckets, grapples, and rippers, have been selling well in more than 40 countries and areas.

We are located in Guangdong Province, China. A 18000 m<sup>2</sup> 50 welding workers with over 7 years experience, 30 senior designers, and a high-tech R&D team (10+ years on customization, 100+ technical patents), strict production system (6+ years quality control and cost control) and warm-hearted service team. Our annual output of various types of excavator boom arms can reach up to 600 sets.

We strive to uphold our core principles of "Merit Quality, Sincerity Management, and Customer Satisfaction".
