Quick Detail of one set of telescopic boom excavator:

Safety is a critical aspect in the production of a telescopic boom. The double-limit design enhances safety, ensuring a more secure operation. Using premium materials, such as Shaogang Q355B or others as you request, provides superior durability compared to other options. Additionally, the longer lifespan is achieved by cutting the two main plates from a single piece, and the double oil seal design further extends the service life of the excavator's telescopic feature. The parts which bear huge stress is reinforced.
