

6 Ton 20 Ton 25 Ton Excavator Long Reach Boom 16m

Our Product Introduction

for more products please visit us on excavatorlongarm.com

Basic Information

- Place of Origin: China
- Brand Name: Kaiping Zhonghe Machinery
- Certification: CE, patent, ISO
- Model Number: JCB005
- Minimum Order Quantity: 1 set / piece
- Price: USD 199.00-USD2990.00
- Packaging Details: bubble / wooden cases
- Delivery Time: 7-20/works
- Payment Terms: T/T, L/C, others as you request
- Supply Ability: 7 sets per week

Product Specification

- After-sales Service: Available
- Length: 16m 18m 20m 22m 24m
- Certifications: Patent, ISO, CE
- Suitable Excavator: 6 Ton 20 Ton 25 Ton 55 Ton Excavator And Above
- Product Name: Excavator Long Boom Arm For Sale
- Wide Application: Used In Digging Sand, Soil, Silt, Gravel, Unloading At Jetty, Clean River, Etc
- Warranty: 6 Months
- Bucket Capacity (cbm): 0.4, 0.6, 0.8, 1
- Highlight: 16m Excavator Long Reach Boom, 25 Ton Excavator Long Reach Boom, 20 Ton Excavator Long Reach Boom

Product Description

Premium No.1 long reach boom excavator boom for sale excavator long boom arm for sale

How to chose one set of suitable excavator long arm? Pipelines play an important factor.

Introduction of excavator long boom arm for sale:

Long boom excavator for sale is suitable for every brand of excavators like hitachi komatsu sany zoomlion etc. Long Excavator boom is common seen in the projects which need long reach operation like digging sand from seabed, digging sand soil silt from basement, cleaning river etc. Long boom excavator is a very practical tool which can be install with a bucket / breaker / shear etc. Because the standard arm standard boom can't reach deeply or finish long reach operation.

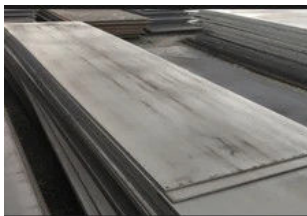

Pipelines is an essential factor in long boom excavator:

Premium pipelines of long boom excavator is a important factor for excavators. There are many risks of using poor-quality pipelines.

Because there will be a lot of impurities in the pipelines. The impurities will get into the whole hydraulic system. In other means, the impurities will pollute the whole hydraulic system. This is a big question. If the impurities get into the front part attachments like shear, clamshell bucket, quick hitch etc, will damage the excavator attachments. The cost will be large. There is a big requirement of the pipelines of long reach boom arm.

Zhonghe Machinery's pipelines is high-quality pipelines which can lessen the later maintainment. Long reach boom's pipelines is full tested and clean and then send to clients. Long reach excavator reach's pipeline can bear huge stress which can avoid cracking.
