Product Description

Sales No.1 Excavator long reach boom excavator boom for sale excavator long arm for cat hitachi komatsu sany kato

How to chose one set of suitable excavator long boom arm for sale? Connectors play an essential factor.

Introduction of long boom excavator for sale:

Long reach boom arm is a very practical and versatility tool in construction work.

Long boom excavator is famous for its long reach, the working span is longer than standard arm standard boom. The front part can be a standard bucket / shear etc which enable it to dig sand soil silt or demolate buildings.

Long reach excavator reach's connectors are essential factor. As we all know, a high quality connector can avoid oil leakage in usage.

Whats more for later maintainment, a practical connector is very important. Zhonghe Machinery's connectors are international connectors.

The brand of our connectors is Ningbo Connectors which are very famous in the market. The quality is high guaranteed. The connectors are

not easy leak oil and longer life-span.

Its easy for clients to buy International connectors from market which can reduce the later maintainment.

Excavator boom arm has longer life-span and work more effectively than other suppliers.
