

Excavator Telescopic Arm With Clamshell Bucket For Digging House Foundation

Our Product Introduction

for more products please visit us on excavatorlongarm.com

Basic Information

- Place of Origin: China, Guangdong
- Brand Name: Zhonghe Machinery
- Certification: Patents, ISO
- Model Number: SSB011
- Minimum Order Quantity: 1 piece / set
- Price: USD 123.00-USD6999.00
- Packaging Details: Bubble / wooden cases
- Delivery Time: 7 days-20 days
- Payment Terms: T/T, L/C, or others as you request
- Supply Ability: 6 sets per week

Product Specification

- Welding: Premium
- Bucket Capacity: 0.6m³, 1.5m³, 2.2m³, 2.5m³
- Maximum Reach: 32m
- Model: SSB011
- Condition: New
- Number Of Sections: 3 Sections
- Warranty: 6 Months
- Type: Excavator Attachment
- Highlight: Excavator Telescopic Arm,
House Foundation Telescopic Arm,
Clamshell Bucket Telescopic Arm

Product Description

Excavator telescopic arm telescopic arm for excavator for digging house foundation carry clamshell bucket / grapple

Introduction of excavator telescopic arm:

Excavator telescopic arm is commonly used in digging house foundation which can reach more than 20m, 25m, 26m, 30m, 32m.

The front excavator attachments of the telescopic arm for excavator can be a clamshell bucket or a grapple. The capacity of the clamshell bucket

or the excavator orange peel grapple is big enough to carry the sand / soil / silt / gravel from the bottom.

Features of one set of telescopic arm excavator:

Our excavator section telescopic arm has many features which excel others are as follow:

* Longer life-span:

1. welding of telescopic boom excavator: we adopt Jinqiao welding wires which is famous welding wire brand in China; every welding bead is full

tested before sending to clients. By conducting welding flaw detection, we can ensure premium welding bead.

2. material of excavator telescopic boom: The material of the telescopic cab excavator is BS900E which is famous for its premium welding performance and not easy breaking or cracking. BS900E is lighter and stronger which is the same of the material of crane.

* Safe:

Every set of hydraulic telescoping excavator boom will be test before sending to clients. The length of excavator teledipper will be suitable according to the excavator model. The excavator telescopic boom telescopic arm is stable.

Production Process of excavator telescopic boom telescopic arm:

*Professional *High precision

Excavator teledipper is processed by Large floor-standing double-sided boring machine. The process ensure machining precision of no less than 0.05mm. Excavator telescopic boom telescopic arm will be on the excavator suitably.

Feedback from Clients

from Jimmy:
cool, the telescopic boom
works effectively. suitable for
grabbing.

from Michael:
suitable for digging caisson.
save energy.

from Tonny:
Very excellent telescopic boom.
on my excavator suitably. perfect

from Tom:
The boom works very good.
safe and balanced operation
very nice service.
