

## Cat Hitachi Excavator Telescopic Arm For Digging House Foundation Dig Deeper

Our Product Introduction

for more products please visit us on excavatorlongarm.com

### Basic Information

- Place of Origin: Guangdong Province, China
- Brand Name: Kaiping Zhonghe Machinery
- Certification: CE, patent, ISO
- Model Number: SSB007
- Minimum Order Quantity: 1 set / piece
- Price: USD 130- USD 7999
- Packaging Details: bubble, wooden cases or others as you request
- Delivery Time: 15 working days
- Payment Terms: T/T, L/C, or others as you request
- Supply Ability: 6 sets per week

### Product Specification

- Features: Extend And Retract By Cylinder
- Quality: Premium
- Apply To: 6 Ton - 36 Ton Excavator
- Digging Depth: 6m-16m
- Bucket: Standard Bucket / Clamshell Bucket
- Situation: New
- Excavator Accessories: Bucket And Other Accessories
- Material: LG700 / BS900E
- Highlight: Digging House Foundation Excavator Telescopic Arm, Cat Excavator Telescopic Arm, Hitachi Excavator Telescopic Arm

Introduction of telescopic arm for excavator:

The two-section telescopic arm excavator represents a significant advancement in excavation technology, designed to meet the demanding needs of construction and earthmoving projects. With its ability to dig deeply into various terrains, this excavator is equipped to handle a wide range of tasks efficiently. Its distinctive feature, a telescopic arm, provides an extended reach and enhanced digging capability, allowing operators to access hard-to-reach areas and perform intricate excavation with precision.

This excavator can accommodate both standard and clamshell buckets, making it a versatile tool for different excavation needs, from trenching to site preparation. Its robust construction ensures not only effective work performance but also a longer lifespan, reducing maintenance costs and downtime. Engineered for reliability and efficiency, the two-section telescopic arm excavator is an essential asset for any modern construction site, delivering both power and precision in every operation.

There is no wire ropes. Only one super long cylinder inside.

Suitable Excavator Model (ton)	Maximum Digging Depth (m)
6T	6m
20-36T	14m
24-36T	15m
25-36T	16m

Please send your excavator model directly to us, suitable recommend will be available.

#### Production process of telescopic arm for excavator:

- \* Quality guaranteed: All material of telescopic arm excavator is stock suitably which can prevent it from moisture, corrosion
- \* Steel material: LG700 which is lighter and stronger. Less load on the excavator and work more effectively
- \* Full test: Every set of telescopic arm excavator is full tested before sending to clients. The quality of excavator telescopic arm is guaranteed.

The warranty of every set of telescopic arm is 6 months.

- \* High precision production process: Large floor-standing double-sided boring machine ensure machining precision of no less than 0.05mm

Beveling Machine  
Every board will be  
beveled before being  
welded which enhances  
the weld bead

Panel is cut by CNC  
plasma machine with  
less deformation

Large floor-standing  
double-sided boring  
machine  
Higher accuracy

# Feedback from Clients

from Jonson:  
the telescopic boom is suitable for digging caisson. excellent performance.

from Ryon:  
deeper digging depth. work effectively. nice service

from Ton:  
Very excellent telescopic boom. on my excavator suitably. very good job

from Cris:  
safe and balanced. premium excavator boom. perfect

2. Bucket cylinder hoses can be replaced easily, without dismantling the arm.

Established in 2018, Kaiping Zhonghe Machinery is a combination of manufacturing and trading. Our products, including excavator long reach booms, demolition arms, 2-3 sections telescopic arms, tunnel arms, standard/rock buckets, grapples, and rippers, have been selling well in more than 40 countries and areas.

We are located in Guangdong Province, China. A 18000 m<sup>2</sup> 50 welding workers with over 7 years experience, 30 senior designers, and a high-tech R&D team (10+ years on customization, 100+ technical patents), strict production system (6+ years quality control and cost control) and warm-hearted service team. Our annual output of various types of excavator boom arms can reach up to 600 sets.

We strive to uphold our core principles of "Merit Quality, Sincerity Management, and Customer Satisfaction".
