Product Description

Telescopic Arm for Excavator with Clamshell Bucket / Grapple for Grabbing Sand Stone Gravel 25M 30M 32M

Introduction of Kaiping Zhonghe Machinery's excavator telescopic arm:

Kaiping Zhonghe Machinery proudly presents its latest innovation in excavation technology: the high-quality excavator telescopic arm. Designed with efficiency and precision in mind, this advanced telescopic arm is engineered to enhance the performance of excavators, making it exceptionally suitable for digging house foundations. With its robust construction and reliable functionality, the telescopic arm ensures that operators can achieve greater depth and reach with ease, significantly boosting productivity on the job site. Whether for residential or commercial projects, Kaiping Zhonghe Machinery's excavator telescopic arm stands out as the ideal solution for those seeking high effectiveness and superior quality in their excavation endeavors.

digging depth of telescopic dipper arm(m)	clamshell bucket's bucket capacity(cbm)(m3)
16m	0.4cbm
18m	0.4cbm
20m	0.6cbm
25m	1.5cbm
30m	1.5cbm 2cbm
32m	2.2cbm 2.5cbm
32m	1 cbm

Welcome to send your excavator model to us for introducing the suitable length of excavator clamshell telescopic boom.

Some pictures of telescopic arm for excavator:
