## Product Description

### Big Manufacturer of Telescopic Excavator for Digging Sand Soil Silt

#### Overview of Telescopic Booms for Excavators / Excavator Telescopic:

**Premium Quality Material for Long Arm Excavators:** Constructed from Shaogang Q355B, our excavator long arm exceeds the quality of standard Q355B materials and other alternatives tailored to your requirements. Shaogang Q355B is recognized as a top-tier steel material.

**Improved Operational Efficiency:** The primary plates of the excavator's sliding boom arm are made from a single sheet, ensuring structural integrity. Additionally, the dual oil seal design significantly enhances the durability of the telescopic arm, prolonging its operational life.

The Long Boom Excavator for Sale is ideal for applications such as excavating foundation pits, as well as digging sand, soil, silt, and gravel.
