

12M Excavator Telescopic Arm Telescopic Boom Better Welding Better Steel Material

Our Product Introduction

Basic Information

- Place of Origin: China, Guangdong Province
- Brand Name: Kaiping Zhonghe Machinery Manufacturing Co. Ltd
- Certification: CE, patent, ISO
- Model Number: HB009
- Minimum Order Quantity: 1 set / piece
- Price: USD 119.00-USD8899.00
- Packaging Details: bubble / wooden cases / others as you request
- Delivery Time: 4-30/works
- Payment Terms: T/T, L/C
- Supply Ability: 10 sets per week

Product Specification

- Features: Longer Service Life-span
- Material: Premium
- Suitable Excavators: 6 Ton Or Above Excavators
- Manufacturer: Yes
- Digging Depth: 10m 12m
- Key Word: Excavator Telescopic Arm
- Highlight: **Better Welding Excavator Telescopic Boom, 12M Excavator Telescopic Boom, Better Steel Material Excavator Telescopic Boom**

Product Description

Enhanced Strengthen Excavator Telescopic Arm for Excavator with Longer Service Life-span

Kaiping Zhonghe Machinery's excavator sliding arms boast a significantly enhanced and strengthened long cylinder, a key component for optimal performance and durability. This critical upgrade ensures the arm can withstand greater pressure and stress, contributing to smoother operation and increased lifting capacity. By prioritizing the reinforcement of this vital element, Kaiping Zhonghe Machinery delivers a sliding arm that offers superior reliability and longevity, setting a new standard for performance in the field.

The commitment to quality at Kaiping Zhonghe Machinery translates directly into a lower failure rate for their excavator telescopic arms. Rigorous testing and meticulous manufacturing processes ensure that each arm meets the highest standards of performance and reliability. This dedication to excellence provides customers with peace of mind, knowing they are investing in a durable and dependable piece of equipment that will minimize downtime and maximize productivity on the job site.

The Specification of One Set of Excavator Telescopic Arm are as follow:

3-4T	0.1	4
6-8T	0.2	6
10-12T	0.35	8
20-27T	0.5-0.6	10
20-27T	0.45	12
30-36T	1.2	10
30-36T	1	12
30-36T	0.6	12

The double limit design of the sliding cylinder prevents cylinder jolting and over-pulling.

Telescopic cylinder double oil seal design extends the service life of the cylinder

Cover plates are cut from a whole piece but not spliced, to be more firm and not easy to deform.

Built-in wear-resistant plastic slider, Easy to replace and maintain

The tube has leakage holes to reduce water accumulation inside the arm tube, thereby reducing internal corrosion.
