

Excavator Telescopic Arm Bearing Part With Multi Layer Reinforced

Our Product Introduction

for more products please visit us on excavatorlongarm.com

Basic Information

- Place of Origin: Guangdong Province, China
- Brand Name: Kaiping Zhonghe Machinery Manufacturing Co. Ltd
- Certification: CE, ISO, Patent
- Model Number: TA009
- Minimum Order Quantity: 1 set / piece
- Price: USD 159.00-USD5999.00
- Packaging Details: bubble / wooden cases
- Delivery Time: 5-20/works
- Payment Terms: T/T, L/C
- Supply Ability: 8 sets per week

Product Specification

- Material: Q690D, Lighter And Stronger Material
- Hot-sale: Super Hot-sale
- Service Life-span: Longer Service Life-span
- Cylinders: Premium Cylinders
- Digging Depth(m) : 10m 12m 14m 16m 20m
- Color: Red, Yellow, Blue, Grey Etc
- Highlight: **Excavator Telescopic Arm Bearing Part, Reinforced Excavator Telescopic Arm Bearing Part**

Product Description

Excavator Telescopic Arm Use Q690D Material Lighter and Stronger

Kaiping Zhonghe Machinery's excavator telescopic arm is constructed using Q690D material, known for its exceptional strength-to-weight ratio. The innovative material of excavator telescopic arm is not only lighter but also significantly stronger than traditional options, allowing for enhanced performance without adding unnecessary weight. As a result, the overall load on the excavator is reduced, optimizing its operational efficiency. Excavator telescopic arm is suitable for various excavators: Cat Hitachi Komatsu Kato Sany etc.

With the incorporation of Q690D material, the excavator with telescopic arm operates at super high efficiency, enabling faster cycle times and increased productivity on the job site. This advancement not only improves the machine's performance but also contributes to fuel savings and reduced wear and tear. By choosing Kaiping Zhonghe Machinery's telescopic arm, operators can expect superior durability and effectiveness in their excavation tasks.

Advantages of Excavator telescopic arm:

- * The reel of telescopic arm for excavator adopts enlarged spring piece
- * The tube box of excavator telescopic arm is made of LG700 high strength material
- * Bearing part of excavator telescopic arm is with multi-layer reinforced
- * The pivot end of excavator telescopic arm is reinforced with multiple layers to withstand greater excavation forces
- * The exposed bucket cylinder of excavator telescopic arm can be replaced without disassembling arm, which is convenient for maintenance

excavator model(ton)	bucket capacity(cb m)	bucket cylinder	digging depth(m)
30-36T	1	35T	15
24-28T	0.8	30T	15
24-28T	0.4	20T	16
30-36T	0.8	22T	16

Production Advantages

01 >>

Panel is cut by
CNC plasma
machine with
less deformation

<< 02

Tolerance within
± 10mm

5-10um, ensure the accuracy of hole

03 >>

GMAW-Gas Metal Arc Welding

<< 04

Environmentally friendly verified spraying room. Professional and beautiful paint finish
