## Product Description

### Excavator Tilt Bucket for Excavator Telescopic Arm A Versatility Tool

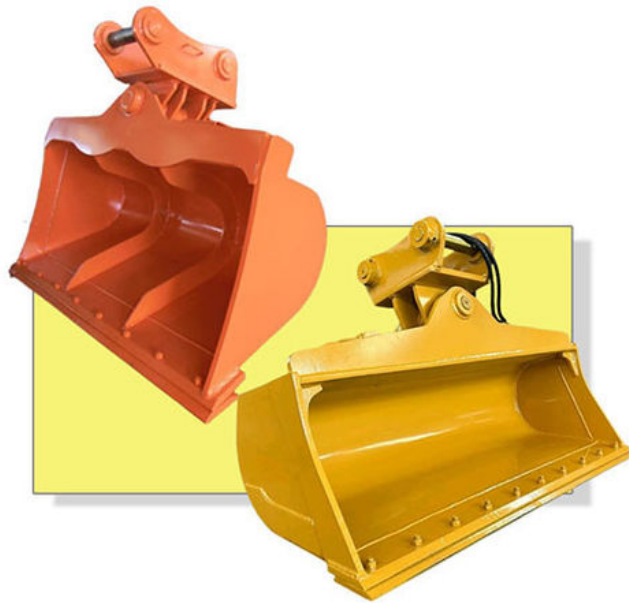

#### Excavator Tilt Bucket Overview:

The excavator tilt bucket, specifically designed for mini excavators, offers remarkable versatility. Constructed from high-quality Shaogang Q355B steel, this bucket for telescopic arm for excavator provides exceptional durability and strength. Various models of the mini excavator tilt bucket come with different capacities, catering to a range of excavation needs. Enhanced longevity is achieved through multiple welding beads in high-stress areas, ensuring that each bead is meticulously beveled before application for added robustness. Capable of tilting approximately 40 degrees left and right, this hydraulic tilt bucket is a top-selling choice known for its efficiency in tasks such as ramp repairs and soil excavation.
