

Telescopic Arm For Bucket Digging Foundation House Red Hitachi

Our Product Introduction

Basic Information

- Place of Origin: Guangdong Province, China
- Brand Name: Kaiping Zhonghe Machinery Manufacturing Co. Ltd
- Certification: CE, patent, ISO
- Model Number: HB0019
- Minimum Order Quantity: 1 set / piece
- Price: USD 139.00-USD6999.00
- Packaging Details: bubble / wooden cases / others as you request
- Delivery Time: 10-20/works
- Payment Terms: T/T, L/C
- Supply Ability: 5 sets per week

Product Specification

- Long Reach: 10M 12M 16M
- Material: Q355B Or Q690D Or As You Request
- Quality: Premium
- High Effective: Yes
- Warranty: 6 Months For The Arm And Cylinder, 3 Months
- After-sales Service: 24h
- Highlight: House Foundation Telescopic Arm, Red Hitachi Telescopic Arm, Bucket Digging Telescopic Arm

Product Description

10M for Excavator Telescopic Boom Telescopic Arm Hitachi Komatsu Sany Cat Zoomlion

Introduction of **Excavator Telescopic Boom Telescopic Arm**:

A telescopic excavator is a highly adaptable piece of heavy machinery suited for a variety of excavation tasks. Its standout feature is the extendable arm, which enables operators to access greater distances and depths compared to conventional excavators. This versatility makes it perfect for numerous applications, including construction, landscaping, and utility work. The ability to adjust the arm to different lengths enhances flexibility and efficiency, especially in confined or difficult workspaces.

Beyond their impressive reach, telescopic excavators incorporate advanced hydraulic systems that facilitate smooth and precise maneuvering. This technology allows operators to execute tasks with increased control and accuracy, whether they are digging, lifting, or transporting materials. The synergy of extended reach and sophisticated hydraulics not only boosts productivity but also enhances safety on job sites by allowing operators to maintain a safe distance from hazardous areas, minimizing the risk of accidents.

Highlights of Kaiping Zhonghe Machinery's **Excavator Telescopic Boom Telescopic Arm**:

Strews
Available

its easy for the
pipeline jumps
up, causing
damage to the
pipeline.

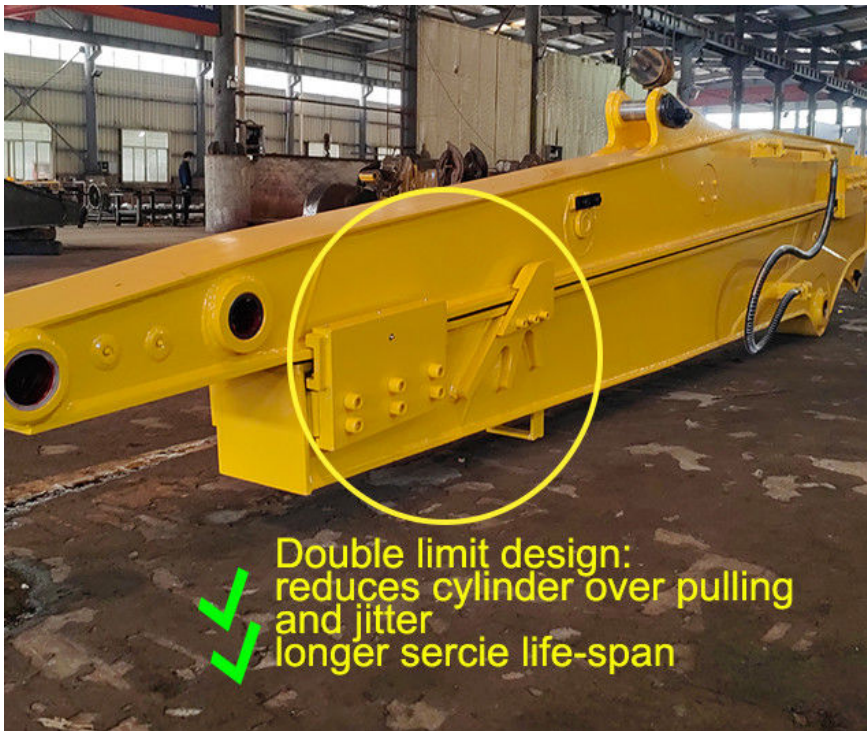

Welded on, less
vibration and
longer service
life.

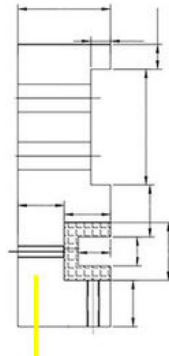

Double limit design
reduces cylinder over pulling
and jitter

Huge vibration
cylinder easy to fail

Double limit design:
reduces cylinder over pulling
and jitter
longer scissor life-span

Thicken
Reduce cracking and failure rate

Longer service life-span

Easy to fail and crack

Top Picks of Excavator arms and booms:

Telescopic Arm

Three-section Telescopic Arm

Tunnel Arm / Shorten Arm

Pile Arm Pile Boom
