

Excavator Telescopic Arm With Grapple And Long Reach Use Better Material

Our Product Introduction

for more products please visit us on excavatorlongarm.com

Basic Information

- Place of Origin: Guangdong Province, China
- Brand Name: Kaiping Zhonghe Machinery Manufacturing Co. Ltd
- Certification: CE, patent, ISO
- Model Number: SSB008
- Minimum Order Quantity: 1 set / piece
- Price: USD 129.00-USD8999.00
- Packaging Details: bubble / wooden cases / others as you request
- Delivery Time: 5-20/works
- Payment Terms: T/T, L/C or others as you request
- Supply Ability: 5 sets per week

Product Specification

- Material: BS900E, Lighter And Stronger
- Long Reach: 20m 25m 30m 32m
- Attachments: Bucket / Clamshell Bucket / Grapple
- Warranty: 6 Months
- Welding: Premium Welding
- Wire Rope: High Quality Wire Rope
- Highlight: Long Reach Excavator Telescopic Arm, Long Reach Telescopic Arm, Grapple Telescopic Arm

Product Description

Premium Welding Wire Excavator Telescopic Arm with Better Welding

Introduction of Kaiping Zhonghe Machinery's Excavator Telescopic Arm:

Kaiping Zhonghe Machinery's excavator telescopic arm has emerged as a top choice in the construction field, thanks to its innovative design and exceptional performance. Engineered for versatility and efficiency, excavator telescopic arm enhances the capabilities of excavators, allowing for greater reach and precision in various applications. The excavator telescopic arm's robust construction ensures durability under demanding conditions, making it ideal for both large-scale projects and smaller tasks. As demand continues to rise, Kaiping Zhonghe Machinery stands out for its commitment to quality and customer satisfaction, solidifying its position as a leader in the machinery market.

Specification of one set excavator telescopic arm:

Welcome to send your excavator model to us for double check. Whatsapp: [+86 13822325403](https://wa.me/8613822325403)

Digging Depth(m)	Excavator Model(ton)	Bucket Capacity(cbm)
26-30m	36-50T	1.5
		1.5
		2
		2
		2.2
		2.2
	40-50T	2.2
31-32m	40-50T	2.2
		2.5

Production of one set excavator telescopic arm:

* Professional *High Effective *Longer service life-span

Panel is cut by CNC
plasma machine with
less deformation

Large floor-standing
double-sided boring
machine
Higher accuracy

Beveling Machine
Every board will be
beveled before being
welded which enhances
the weld bead

Full Tests---Every Procedure is under strict supervision 每道工序都是在严格监督下进行

Assembly inspection 安装检测

Weld flaw detection

Make sure premium welding and not easy cracking

焊道探伤检测--确保优质的焊道和不容易开裂

Regular Testing 常规检测

Modetails of our excavator telescopic arm:

High-speed Heavy-load Bearings

The bearings are high-speed heavy-load bearings, and the bearings use larger diameters to withstand greater loads.

Double oil seal design prevents hydraulic oil from leaking, prolongs the service life of the cylinder

Clamshell bucket adopts double cylinders---less failure rate easy maintenance, not easy leak oil

1.2 Details of Three-section telescopic arm

三段式伸缩臂细节

The external hose pulley separates the hose from the wire rope, avoids the friction between the wire rope and the hose, reduces failures, and makes maintenance more convenient

Centralized lubrication system
--easy for later maintenance

Stop valve - easy to replace
attachments
lessen oil leakage

Premium Wire Rope

Xianyang Baoshi Rotary wire rope--can bear larger tension and impact

Multi-strand Wire Rope

The inner core of the wire rope is a steel core, which has higher tensile strength.

MC Steel

The pulley is made of MC steel, which has the same hardness as steel, but is light and wear-resistant. The wheel diameter is enlarged to withstand greater loads.
