

Excavator Telescopic Arm With Hydraulic Long Reach Grapple Better Welding

Our Product Introduction

for more products please visit us on excavatorlongarm.com

Basic Information

- Place of Origin: Guangdong Province, China
- Brand Name: Kaiping Zhonghe Machinery Manufacturing Co. Ltd
- Certification: CE, patent, ISO
- Model Number: SSB009
- Minimum Order Quantity: 1 set / piece
- Price: USD 119.00-USD8999.00
- Packaging Details: bubble / wooden cases / others as you request
- Delivery Time: 5-20/works
- Payment Terms: T/T, L/C or others as you request
- Supply Ability: 5 sets per week

Product Specification

- Attachments: Bucket / Clamshell Bucket / Grapple
- Warranty: 6 Months
- Material: BS900E, Lighter And Stronger
- Welding: Premium Welding
- Wire Rope: High Quality Wire Rope Multi-strand
- Digging Depth(m): 20m 25m 30m 32m
- Highlight: Hydraulic Excavator Telescopic Arm, Hydraulic Long Reach Telescopic Arm, Better Welding Telescopic Arm

18000M² Steel Structure Workshop with Super Precision Machines

30 senior Designers

- ① Full Experienced
- ② Professional
- ③ Honest
- ④ Consumer-centric
- ⑤ Premium Products

More Images

Double oil seal design prevents hydraulic oil from leaking, prolongs the service life of the cylinder

Clamshell bucket adopts double cylinders—less failure rate, easy maintenance, not easy leak oil

MC Steel

✓ The pulley is made of MC steel, which has the same hardness as steel, but is light and wear-resistant. The wheel diameter is enlarged to withstand greater loads.

Product Description

Excavator Telescopic Arm with One Clamshell Bucket Used in Construction

Introduction of Kaiping Zhonghe Machinery's hydraulic telescoping excavator boom :

Kaiping Zhonghe Machinery's excavator telescopic arm is an incredibly valuable tool in construction work, offering enhanced versatility and efficiency for various applications. Its ability to extend and retract allows operators to reach difficult areas with ease, making it ideal for tasks such as digging, lifting, and precise positioning. The robust design ensures reliable performance even in challenging environments, contributing to increased productivity on job sites. With its innovative features and user-friendly operation, this telescopic arm has become essential for contractors looking to optimize their equipment and achieve superior results in their projects.

Specification of one set hydraulic telescoping excavator boom:

Welcome to send your excavator model to us for double check. Whatsapp: [+86 13822325403](https://wa.me/8613822325403)

Material: BS900E lighter and stronger

Pulley: Enlarge Pulley

Bearing: Enlarge Bearing

Digging Depth(m)	Excavator Model(ton)	Bucket Capacity(cbm)
26-30m	36-50T	1.5
		1.5
		2
		2
		2.2
		2.2
	40-50T	2.2
31-32m	40-50T	2.2
		2.5

Production of one set excavator telescopic arm:

* Professional *High Effective *Longer service life-span

Panel is cut by CNC
plasma machine with
less deformation

Large floor-standing
double-sided boring
machine
Higher accuracy

Beveling Machine
Every board will be
beveled before being
welded which enhances
the weld bead

Full Tests---Every Procedure is under strict supervision 每道工序都是在严格监督下进行

Assembly inspection 安装检测

Weld flaw detection

Make sure premium welding and not easy cracking

焊道探伤检测--确保优质的焊道和不容易开裂

Regular Testing 常规检测

Modetails of our telescopic arm for excavators:

High-speed Heavy-load Bearings

The bearings are high-speed heavy-load bearings, and the bearings use larger diameters to withstand greater loads.

Double oil seal design prevents hydraulic oil from leaking, prolongs the service life of the cylinder

Clamshell bucket adopts double cylinders---less failure rate easy maintenance, not easy leak oil

1.2 Details of Three-section telescopic arm 三段式伸缩臂细节

The external hose pulley separates the hose from the wire rope, avoids the friction between the wire rope and the hose, reduces failures, and makes maintenance more convenient

Centralized lubrication system --easy for later maintenance

Stop valve - easy to replace attachments lessen oil leakage

Premium Wire Rope

Xianyang Baoshi Rotary wire rope--can bear larger tension and impact

Multi-strand Wire Rope

The inner core of the wire rope is a steel core, which has higher tensile strength.

MC Steel

The pulley is made of MC steel, which has the same hardness as steel, but is light and wear-resistant. The wheel diameter is enlarged to withstand greater loads.
