Product Description

BS900E Lighter Stronger Excavator Telescopic Boom Telescopic Arm with Grapple / Clamshell Bucket

Instruction of one set of Excavator Telescopic Boom Telescopic Arm:

Suitable for various excavators from 20ton to 55ton excavators. Suitable for various excavator brand: Hitachi komatsu sany zoomlion etc

Working condition of one set of Excavator Telescopic Boom Telescopic Arm: digging house foundation, foundation pit, narrow places, etc.

Advantages of Kaiping Zhonghe Machinery's Excavator Telescopic Boom Telescopic Arm:

Kaiping Zhonghe Machinery's telescopic excavator stands out as a remarkable tool tailored for construction applications, merging flexibility with high performance. Its extendable arm enhances reach and accuracy, making it perfect for a range of operations, including digging, lifting, and handling materials in confined areas. Built to withstand tough environments, its sturdy construction guarantees longevity, while the sophisticated hydraulic system ensures seamless operation and rapid responsiveness. This equipment proves to be an essential resource on construction sites, empowering operators to manage projects effectively and boost overall efficiency.

Modetails of Telescopic Boom Long Reach Boom Long Arm

High-speed Heavy-load Bearings

✓ The bearings are high-speed heavy-load bearings, and the bearings use larger diameters to withstand greater loads.

Double oil seal design prevents hydraulic oil from leaking, prolongs the service life of the cylinder

Clamshell bucket adopts double cylinders---less failure rate easy maintenance, not easy leak oil

1.2 Details of Three-section telescopic arm 三段式伸缩臂细节

The external hose pulley separates the hose from the wire rope, avoids the friction between the wire rope and the hose, reduces failures, and makes maintenance more convenient

Centralized lubrication system --easy for later maintenance

Stop valve - easy to replace attachments lessen oil leakage

Premium Wire Rope

Xianyang Baoshi Rotary wire rope--can bear larger tension and impact

Multi-strand Wire Rope

✓ The inner core of the wire rope is a steel core, which has higher tensile strength.

MC Steel

✓ The pulley is made of MC steel, which has the same hardness as steel, but is light and wear-resistant. The wheel diameter is enlarged to withstand greater loads.
