

Excavator Clamshell Telescopic Arm with Teeth for Grabbing Sand Soil

Our Product Introduction

for more products please visit us on excavatorlongarm.com

Basic Information

- Place of Origin: Guangdong Province, China
- Brand Name: Kaiping Zhonghe Machinery Manufacturing Co. Ltd
- Certification: CE, patent, ISO
- Model Number: SSB004
- Minimum Order Quantity: 1 set / piece
- Price: USD 199.00-USD8999.00
- Packaging Details: bubble / wooden cases / others as you request
- Delivery Time: 5-25/works
- Payment Terms: T/T, L/C or others as you request
- Supply Ability: 5 sets per week

Product Specification

- Material: BS900E, Premium Material
- Long Reach(m): 18m 20m 25m 30m 32m
- Quality: High Quality
- Bucket: 1.5cbm 2cbm 2.5cbm Bucket
- Connectors: High Quality Connectors
- Warranty: 6 Months

Product Description

Excavator Long Reach Stick Boom And Arm with Clamshell Bucket with Teeth

Brief introduction of one set of Excavator Long Reach Telescopic Boom:

The Excavator Long Reach Telescopic Boom is designed for specialized tasks that require extended reach and precision, making it ideal for applications such as dredging, deep excavation, and utility work in confined areas. Its innovative telescopic design allows operators to extend the boom significantly, enhancing access to hard-to-reach sites without the need for repositioning the machine frequently. This increased reach translates to improved working efficiency, as it reduces operational downtime and allows for more effective handling of materials over greater distances. Additionally, its robust construction ensures durability and stability, making it suitable for rigorous tasks in various terrains.

Some pictures of one set of telescopic boom for excavator:

Specification of one set of Telescopic Arm telescopic Boom Arm:

Digging Depth(m)	Excavator Model(ton)	Clamshell Bucket(cbm)	Counterweight(ton)
12	20-25T	0.6	0
14		0.4	0
16		0.4	0
18		0.4	2
20	26-28	0.6	3
20-22	30-33T	1.5	0
	35-38T		3T
	30-33T		0
	35-38T		0
25	35-38T	2.2	6T
	40-50T		0
26-30	36-50T	1.5	5T
		1.5	
		2	6T
		2	
		2.2	7T
		2.2	
		2.2	6T

Welcome to send your excavator model to our sales manager, suitable length and model drawing of telescopic arm will be sent soon.

16m excavator clamshell telescopic boom model drawing and 32m excavator dipper arm model drawing are as follow:

16m Telescopic Arm

16M- Telescopic Boom	
A. Maximum vertical digging depth	16000mm
B. Maximum vertical depth digging radius	7095mm
C. Maximum vertical excavation working radius	8801mm
D. Maximum vertical digging depth	13340mm
E. Maximum vertical excavation working radius	13586mm
F. Maximum unloading height	8044mm
G. Minimum turning radius	6150mm
H. The minimum turning radius is the height of the whole machine	8087mm

32m Telescopic Arm

Details of our excavator clamshell telescopic arm:

1.2 Details of Three-section telescopic arm

三段式伸缩臂细节

The external hose pulley separates the hose from the wire rope, avoids the friction between the wire rope and the hose, reduces failures, and makes maintenance more convenient

Centralized lubrication system
--easy for later maintenance

Stop valve - easy to replace
attachments
lessen oil leakage

Double oil seal design prevents hydraulic oil from leaking, prolongs the service life of the cylinder

Clamshell bucket adopts double cylinders---less failure rate easy maintenance, not easy leak oil

Materials of one set Telescopic Arm With Clamshell Bucket:

Premium Wire Rope

Xianyang Baoshi Rotary wire rope--can bear larger tension and impact

Multi-strand Wire Rope

The inner core of the wire rope is a steel core, which has higher tensile strength.

High-speed Heavy-load Bearings

The bearings are high-speed heavy-load bearings, and the bearings use larger diameters to withstand greater loads.

MC Steel

The pulley is made of MC steel, which has the same hardness as steel, but is light and wear-resistant. The wheel diameter is enlarged to withstand greater loads.

Feedback of Telescopic Boom Long Reach Boom Long Arm from Clients:

Cleaning and dredging

Telescopic arm test

Bridge construction projects

Deep pit work

For Deep foundation pit construction project

For unloading materials

For Large-scale earthworks

Feedback from Clients

from Jimmy:
cool, the telescopic boom
works effectively. suitable for
grabbing.

from Michael:
suitable for digging caisson.
save energy.

from Tonny:
Very excellent telescopic boom.
on my excavator suitably. perfect

from Tom:
The boom works very good.
safe and balanced operation
very nice service.

Certifications of one set of excavator telescopic boom sliding arm:

4. Certifications
