Product Description

Telescopic Excavator with Clamshell Bucket / Standard Bucket for Hitachi Komatsu Sany Volvo

Brief introduction of one set of telescopic excavator:

Telescopic arm excavator is a versatility tool in construction work. Excavator section telescopic arm is equipped with clamshell bucket / standard bucket.

Material: BS900E

The BS900E is a state-of-the-art telescopic excavator designed for efficiency and versatility, utilizing lighter and stronger materials to enhance performance. Engineered with advanced composite materials and high-strength steel, the BS900E offers improved weight-to-strength ratios, allowing for greater reach and payload capacity without compromising structural integrity. This innovative design reduces overall machine weight, resulting in lower fuel consumption and increased maneuverability in tight spaces. Ideal for various applications, from construction to landscaping, the BS900E exemplifies modern engineering, delivering reliable performance while maximizing operational efficiency.
