Suitable excavators for excavator with telescopic boom:

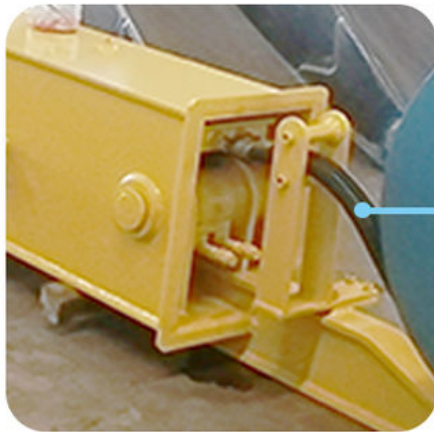

### CHOICE OF LANGUAGE

More details of one set of excavator with telescopic boom:

**Enlarged spring piece**  
**High Effective**  
**Not prone to failure**

**Four-layer steel wire**  
**high pressure hose**  
**More durable**

**The front part is curved**  
**Enlarge the digging**  
**force**  
**Digging effective**  
**is increased.**

The whole plate is inserted

Durable  
Longer life-span

Add two blocks  
on cylinder head

Reduce vibration

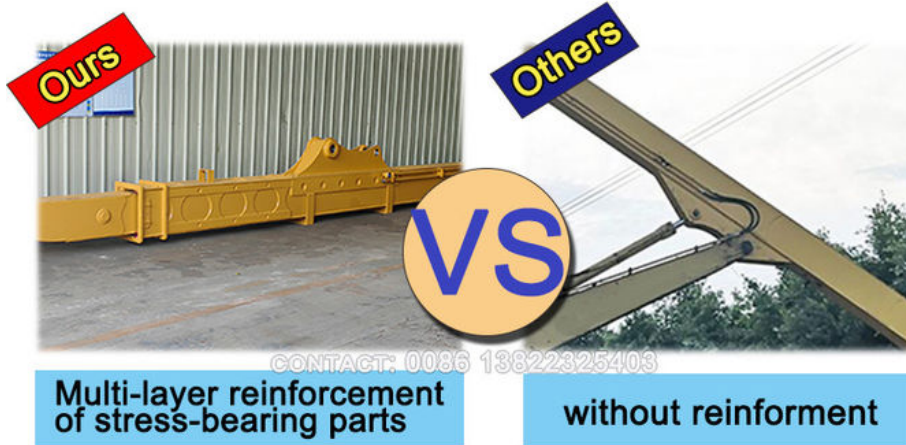

Double oil seal  
design

Avoid oil leakage

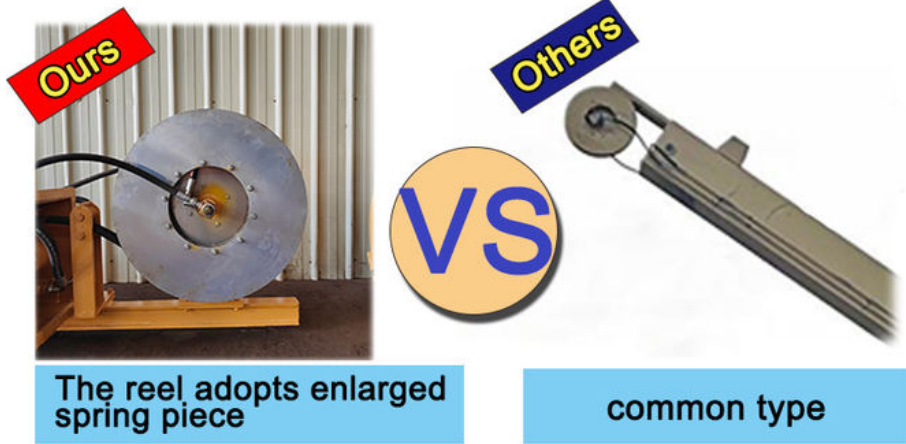

Why chose us instead of others?

**Our two-section telescopic arm for excavator:** The places which bear huge stress adopt multi-layer reinforcement design. Stronger design enhances the parts which won't easy crack.

**Other suppliers' design:** No reinforcement, easy to crack and easy to fail

Our telescopic arm for excavator: Using enlarged hose reel which improve the working efficiency

Other suppliers' hose reel: too small, lower working efficiency
