

Telescopic Arm for Excavator 32m 35m Telescopic Boom Excavator

Our Product Introduction

for more products please visit us on excavatorlongarm.com

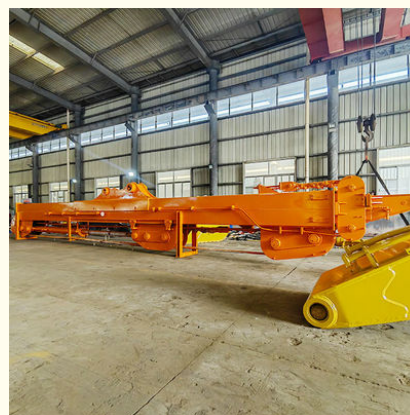

Basic Information

- Place of Origin: Guangdong Province, China
- Brand Name: Kaiping Zhonghe Machinery Manufacturing Co. Ltd
- Certification: CE, patent, ISO
- Model Number: Excavator Telescopic Arm 07
- Minimum Order Quantity: 1 set / piece
- Price: USD 129.00-USD26999.00
- Packaging Details: bubble / wooden cases/ others as you request
- Delivery Time: 5-20/works
- Payment Terms: T/T, L/C
- Supply Ability: 5 sets per week

Product Specification

- Efficiency: High Efficiency, High Effective
- Bucket: 2cbm Clamshell Bucket
- Maintenance: Easy Maintenance, Add Lubricant
- Digging Depth(m): 18m 20m 25m 30m 32m
- Cylinder: High Quality Cylinders, Famous Brand Cylinders
- Material: BS900E, Lighter And Stronger
- OEM/ODM: YES
- High Efficiency: YES
- Longer Service Life-span: YES
- Key Word: Telescopic Arm For Excavator

Product Description

Top 1 Telescopic Arm for Excavator Hydraulic Telescoping Excavator

Introduction of telescopic arm for excavator:

Extended Reach: The telescoping boom allows for greater horizontal and vertical reach compared to standard excavators, enabling operators to tackle tasks in hard-to-reach areas with ease.

Suitable excavator brands for excavator telescopic boom: Sany, hitachi, komatsu, zoomlion, kobelco, etc

Specification detail of one set of hydraulic telescoping excavator:

Digging Depth(m)	Excavator Model(ton)	Clamshell Bucket(cbm)
12	20-25T	0.6
14		0.4
16		0.4
18		0.4
20	26-28	0.6
20-22m	30-33T	1.5cbm
	35-38T	
	30-33T	
	35-38T	
25m	35-38T	2.2cbm
	40-50T	
26-30m	36-50T	1.5cbm
		1.5cbm
		2cbm
		2cbm
		2.2cbm
		2.2cbm
31-32m	40-50T	2.2cbm
		2.5cbm

Welcome to send your excavator model to us for double check. Suitable length and model drawing will be sent soon.

Production of one set of hydraulic telescoping excavator boom:
Better material: BS900E, lighter and stronger.

Key Features:

High-Quality BS900E Material: The use of BS900E material ensures exceptional resistance to wear and tear, providing longevity and reliability even in the most demanding conditions.

Enhanced Performance: Our telescopic arm is engineered to optimize lifting capacity and reach, allowing for efficient operation in tight spaces and challenging environments.

Precision Engineering: Designed with meticulous attention to detail, the arm maintains structural integrity and stability, ensuring safe and effective operation.

Versatility: Compatible with a range of excavator models, our telescopic arm can easily be integrated into existing equipment, enhancing its functionality for various tasks.

Ease of Maintenance: The robust design minimizes maintenance needs, allowing operators to focus on productivity rather than downtime.

BS900E

Every steel plate has certifications

Our steel plates are purchase from BaoGang Company which is a big and famous steel material company.

* Premium wire rope which can bear huge stress: Regarding the wire rope of excavator telescopic arm, we adopt **Xianyang Baoshi wire rope** which is a famous brand in China.

Premium Wire Rope

Xianyang Baoshi Rotary wire rope--can bear larger tension and impact

Multi-strand Wire Rope

The inner core of the wire rope is a steel core, which has higher tensile strength.

* **High-speed Heavy-load bearings:** telescopic arm for excavator adopts high-speed heavy-load bearings which is high quality.

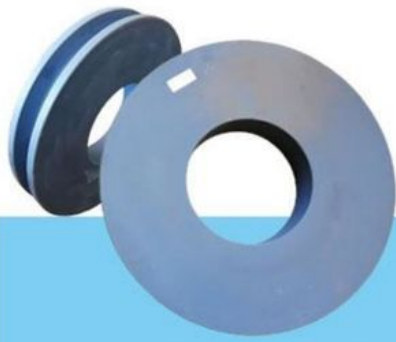

High-speed Heavy-load Bearings

The bearings are high-speed heavy-load bearings, and the bearings use larger diameters to withstand greater loads.

* **High quality pulley:** The pulley of telescopic arm excavator we adopts is high quality which is made of MC steel and has longer service life-span.

MC Steel

✓ The pulley is made of MC steel, which has the same hardness as steel, but is light and wear-resistant. The wheel diameter is enlarged to withstand greater loads.

* **Enhanced connectors:** We adopt high quality and enhanced connectors which can bear huge stress during operations. The brand of connectors we adopt is Ningbo Connectors.

* **Welding wire:** We adopt Jinqiao welding wire as the welding wire of excavator telescopic arm.

Premium Welding Wire
Jinqiao Welding Wire

Product Details of one set of telescopic arm for excavator:

The clamshell bucket has **two cylinders**---less failure rate

Material we use--Shaogang Q355B--with better welding performance

Premium welding
Not easy cracking
Longer life-span

1.2 Details of Three-section telescopic arm

三段式伸缩臂细节

The external hose pulley separates the hose from the wire rope, avoids the friction between the wire rope and the hose, reduces failures, and makes maintenance more convenient

Centralized lubrication system
--easy for later maintenance

Stop valve - easy to replace
attachments
lessen oil leakage

Double oil seal design
prevents hydraulic oil from
leaking, prolongs the service
life of the cylinder

Clamshell bucket adopts double
cylinders---less failure rate
easy maintenance, not easy
leak oil

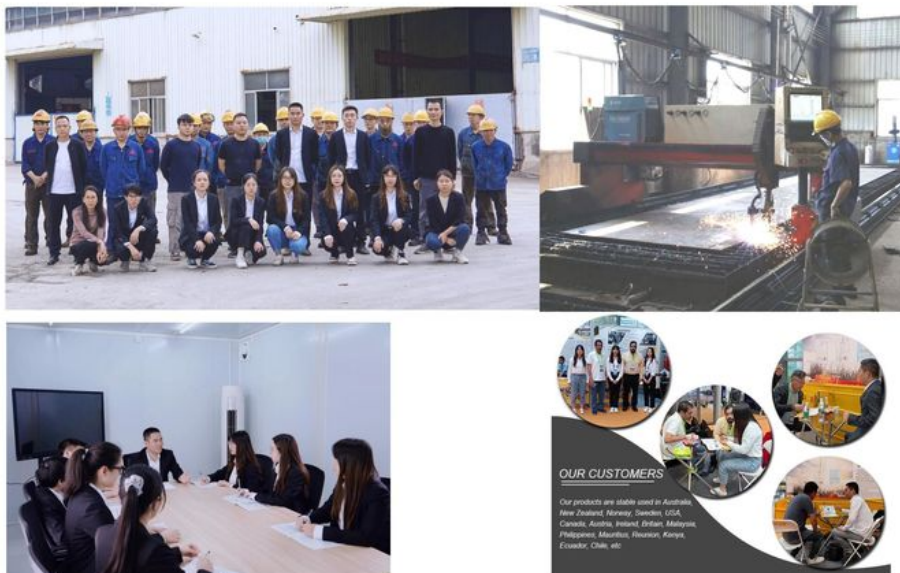

Certifications of Excavator Long Reach Boom And Telescopic Arm:

4. Certifications
