

Excavator Telescopic Arm 12M 14M 16M 18M Excavator Long Reach Arm

Our Product Introduction

for more products please visit us on excavatorlongarm.com

Basic Information

- Place of Origin: Guangdong Province, China
- Brand Name: Kaiping Zhonghe Machinery
- Certification: Patents, ISO, Standard
- Model Number: Excavator Telescopic Arm 09
- Minimum Order Quantity: 1 set / piece
- Price: USD 199.00-USD18999.00
- Packaging Details: bubble / wooden cases
- Delivery Time: 5-25/works
- Payment Terms: T/T, L/C
- Supply Ability: 5 sets per week

Product Specification

- Full Test: Yes
- Suitable Excavator(ton): 6 Ton - 66 Ton
- High Efficiency: YES
- Color: According To Clients' Requirement
- Material: LG700 / Q690D
- Cylinder: Premium Cylinders
- MOQ: 1 Piece / Set
- Digging Depth(m): 12m 14m 16m 18m 20m
- Brand: Zhonghe Machinery
- Customized: YES
- OEM / ODM: Yes
- Highlight: excavator telescopic arm 12m,
long reach excavator arm 18m,
excavator long reach arm 14m

Product Description

Overview of one set of excavator telescopic arm with bucket:

The Excavator Telescopic Arm with Bucket is a versatile attachment designed to enhance the performance and efficiency of excavators in various applications. This innovative system features a telescopic arm that allows for adjustable reach, enabling operators to access challenging areas and perform a wide range of tasks effectively.

Key Features of one set of telescopic arm for excavator:

Adjustable Reach: The telescopic design enables the telescopic arm for sale to extend and retract, providing flexibility to work in tight spaces or at varying depths without needing to reposition the entire excavator.

Robust Construction: Made from high-quality materials, the telescopic arm for excavator is built to withstand heavy-duty use, offering durability and resistance to wear, corrosion, and impact.

High Load Capacity: The attachment is engineered to handle substantial weight, making it suitable for demanding tasks such as digging, lifting, and material handling.

Our telescopic arm for excavator is a very versatility tool in digging sand soil silt dirt:

Very suitable for digging house foundation pits, deep pits, caissons etc

Specifications of one set of excavator telescopic arm with bucket / clamshell bucket:

Digging depth(m)	10m 12m 14m 16m 20m
Suitable excavator brands	Hitachi komatsu sany zoomlion kobelco kato etc

Key Features of one set of excavator long reach arm telescopic arm:

Telescopic arm for excavator is famous for its long reach and deeper digging depth:12m 14m 16m 18m 20m 25m

Applications of the Excavator Long Reach Telescopic Boom

The Excavator Long Reach Telescopic Boom is exceptionally versatile and well-suited for a variety of applications, including:

Deep Excavation Projects: Perfect for reaching deep into the ground, making it ideal for foundation work, underground utilities, and large-scale excavation tasks.

Dredging Operations: Effectively used in waterways and harbors to remove sediment and debris, enhancing water flow and maintaining navigability.

Landscaping and Site Preparation: Useful for grading, trenching, and preparing sites for construction or landscaping projects, especially in challenging terrains.

Pipeline Installation: Ideal for laying pipelines in various environments, providing the necessary reach to access and maneuver around obstacles.

Material Handling: Enhances the ability to lift and move heavy materials in construction and industrial settings, improving overall workflow efficiency.
