Long boom arm of excavator's advantages

- * Good quality as better material, experienced worker and professional engineer.
- * Supply customization service according to customer requirements.
- * Max work range and the max digging height are larger as angle of boom and arm can reach 163 degrees.

Working conditions of excavator long reach fronts

municipal engineering, subway construction, river dredging, reservoir cleaning and other water conservancy projects.

Warning if you buy our long boom for excavator

Arm cylinder use the original one to save cost, and counterweight is not included. we can provide one if needed but not for free.

Pile Driving Boom

- The box has built-in transverse and vertical reinforcement ribs to improve its tensile strength
- Reinforced upper and lower cover plates prolongs service life.

Overall Quality

- * Q355B Material
- * Centralized lubrication system

Boom Base

- * Graphite alloy copper sleeve
- * The boom seat sleeve adopts all in one molding process

Precision Pipe

- * Seamless precision steel pipe
- * Hydraulic pipelines section design, convenient for later maintenance

Welding process

- * Four layers five passes welding
- * High-quality Ningbo connectors

Open Angle

- * The angle between boom and arm can reach 160°
- * Comparing with the same length pile driving arm, ours can pile higher.

PRODUCTION ADVANTAGES

ZHONGHE triple quality control system

The first system is the technical design drawing review mechanism,
The second system is the semi-finished product review mechanism,
(each process has a detection testing for the previous process)
The third system is the finished product testing.
(Before painting, the overall inspection is carried out to check whether the design size matches the welding size, and whether the installation size meets the design requirement.)
To sum up, every single ZHONGHE product has been passed the above three-stage inspection system to ensure that is qualified before shipping.

Large double-sided floor boring machine
