

Excavator Rock Ripper Boom and Arm Strong Boom Digging&Breaking Clay Rock for 45-55 Ton Excavator for CAT/SY Excavator Parts

Our Product Introduction

for more products please visit us on excavatorlongarm.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Zhonghe
- Certification: CE
- Model Number: YSB001
- Minimum Order Quantity: 1 set
- Price: \$26500/pieces
- Packaging Details: Bubble bag packaging
- Delivery Time: 20-30 work day
- Payment Terms: T/T
- Supply Ability: 10 Piece/Pieces per Month

Product Specification

- Brand Name: Zhonghe Machinery
- Product Name: Excavator Rock Arm
- Application: Mining & Construction
- Moving Type: Crawler Excavator
- Material: Q355B/Q690
- Color: Customer's Request
- Warranty: 1 Year
- MOQ: 1 PCS
- Condition: 100%new
- Packing: Bubble Bag Packaging
- After-sales Service Provided: Video Technical Support
- Highlight: Excavator rock ripper boom, Excavator arm strong boom, CAT SY excavator rock arm

Product Description

Excavator Rock Ripper Boom and Arm Strong Boom Digging&Breaking Clay Rock for 45-55 Ton Excavator for CAT/SY Excavator Parts

Product Description

Excavator Rock Boom and Arm

Heavy rock arm is a new type of environmental friendly product which will gradually replace the old-fashioned blasting products. By increasing the weight of the boom arm and the self-gravity of the excavator, it can directly drill rocks. This equipment is characterized by its strong structure, simple operation and outstanding work efficiency, making it a great tool for mining weathering rocks and frozen soils.

Our Product Introduction

Features

1. The overall plate thickening treatment, the internal filling of high-density adamantine, the overall weight is heavier, the ratio is reasonable, can produce more digging force.
2. The enlarged arm cylinder and bucket cylinder can carry greater digging force without malfunctioning.
3. Rock arm and the ripper adopt gradual design, which concentrates all the digging force on the tip of the ripper teeth, and the crushing effect is better.
4. The entire boom arm is post-weld bored, achieving precision comparable to original arms, ensuring superior overall quality.

Specification

Our Advantages:

- * Use Q355B material *CE Certification approved
- * Adopts precision steel pipeline * The patent certificate
- * Adopt alloy copper sleeve big arm base
- * Two layers groove welded to ensure
- * Double quality inspection
- * The tolerance size within 1 mm

Certification:

- *Increase the volume and weight of the arm: The digging force is stronger, the operation is easier and the efficiency is higher.
- *The boom is integrated head: The structure is stronger and stronger, effectively reducing the risk of cracking caused by high-intensity of operations.
- *Bucket cylinder is inverted: It effectively avoids damage to the piston rod caused by possible collisions during excavation, reduces use risks and saves maintenance costs.
- *Cylinder through-pin design: The process requirements are higher, the concentricity is higher, the wear is reduced, the life is longer and more durable.

Company Profile

Founded in 2018, Zhonghe heavy industry independently develops and produces construction machinery parts such as excavator lengthening arm, mountain pulling arm, two-stage telescopic arm, sliding arm, three-stage telescopic arm, three-stage demolition arm, rock arm, tunnel arm, bucket, pile driving arm, wood grabber, steel grabber and scarifier. It is widely used in weathered stone crushing, subway construction, forestry logging, municipal pipeline engineering, river dredging, building demolition, Larsen steel sheet pile driving and pulling, pile foundation engineering, resource recovery and other engineering industries. The products are sold in more than 40 countries and regions. Provide one-year after-sales service with after-sales warranty and deliver on time. 24-hour online service can provide OEM production.

Established in 2018, Kaiping Zhonghe Machinery Manufacturing Co., Ltd. is a combination of manufacturing and trading, specializing in customizing different kinds of excavator boom arms and attachments. Our products, including excavator long reach booms, demolition arms, 2-3 sections telescopic arms, tunnel arms, standard/rock buckets, grapples, and rippers, have been selling well in more than 60 countries and areas.

Our factory advantage:

14000m²+
Factory Area

60+
Worker

Customized

1. Fit all brand.
2. Color, length, material can customized.
3. Extra pipeline can be added to suit to some extra application.

Prompt Lead Time

1. Our lead time is 7-15 days.
2. Our annual output of excavator boom arms can reach 600 sets.

Excellent Service

1. Online support within 24 hours.
2. Appointment video technical support.

14000m² Workshop

We have more than 14000m² steel structure standard workshop with a large number of high precision processing equipment.

R&D Team

We use precision drawing software to achieve the max working range under the premise of safe operation.

Skillful Workers

There are more than 60 skillful staffs, 30 welding workers with over 5 years welding experience.

Production Advantages

Our production equipment

Large double-sided floor boring machine

CNC plasma cutting machine

Automatic edge milling machine

Environmentally friendly spray booth

01 >>

Panel is cut by CNC plasma machine with less deformation

<< **02**

Tolerance within 5-10um, ensure the accuracy of hole

03 >>

GMAW-Gas
Metal Arc
Welding

<< 04

Environmentally
friendly verified
spraying room.
Professional and
beautiful paint
finish

Exhibition

OUR CUSTOMERS

Our products are stable used in Australia,
New Zealand, Norway, Sweden, USA,
Canada, Austria, Ireland, Britain, Malaysia,
Philippines, Mauritius, Reunion, Kenya,
Ecuador, Chile, etc

Certificates

Custom Feedback

Packing & Delivery

To better ensure the safety of your goods, professional, environmentally friendly, convenient and efficient packaging services will be provided.

FAQ

1. Who are we?

We are based in Guangdong, China, start from 2018, sell to Southeast Asia(40.00%), Mid East(10.00%), North America(10.00%), South Asia(8.00%), Eastern Europe(8.00%), Oceania(8.00%), Eastern Asia(5.00%), Africa(5.00%), South America(4.00%), Northern Europe(2.00%). There are total about 51-100 people in our office.

2. How can we guarantee quality?

Always a pre-production sample before mass production;
Always final inspection before shipment;

3. What can you buy from us?

Excavator Long Reach Boom, Excavator Telescopic Arm, Excavator Demolition Arm, Excavator Grapple, Excavator Bucket

4. Why should you buy from us not from other suppliers?

With more than 60 employees, it has its own unique research and development team in more than 10000 square meters of steel structure standardized plant. The annual production of various of arms is up to 600 sets, and various of buckets are 6000 pieces.

5. What services can we provide?

Accepted Delivery Terms: FOB, CIF, EXW, CIP
Accepted Payment Currency: USD, CNY;
Accepted Payment Type: T/T;
