

High Quality Hydraulic Telescoping Excavator Boom High Reach Demolition Boom for Cat320 PC200 Construction Machinery Parts

Our Product Introduction

for more products please visit us on excavatorlongarm.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Zhonghe
- Certification: CE
- Model Number: SSB001
- Minimum Order Quantity: 1 piece
- Price: \$6800/pieces
- Packaging Details: Bubble bag packaging
- Delivery Time: 20-30 work day
- Payment Terms: T/T
- Supply Ability: 50 Piece/Pieces per Month

Product Specification

- Product Name: Excavator Two-Section Telescopic Boom
- Quality: High-Quality
- Moving Type: Crawler Excavator
- Material: Q690D
- Warranty: 1 Year
- Condition: New
- Color: Customize
- MOQ: 1 PCS
- OEM: Support
- Packing: Bubble Bag Packaging
- After-sales Service Provided: Video Technical Support
- Highlight: Hydraulic telescoping excavator boom, High reach demolition boom for Cat320, PC200 excavator telescopic boom

Product Description

PRODUCT DESCRIPTION

Our Product Introduction

What is an excavator telescopic arm

This product mainly consists of **a fixed body, sliding body, steel wire rope and a telescopic cylinder**. By changing the number of sliding bodies, an ideal working radius and vertical excavation range can be achieved. Generally used in combination with a bucket, it can complete deep pit excavation tasks, such as **grabbing soil, sand or coal**.

Advantages of two-section arm

Advantages of telescopic arm

01

Using LG700/785 material, the overall plate strength is stronger and the arm is lighter, reducing the load of the excavator.

02

The unique design of the internally designed long cylinder makes the vibration of the cylinder a thing of the past. We add a slider inside the cylinder to prevent the cylinder from shaking when it expands and contracts. This not only reduces the failure rate of the cylinder, but also reduces the vibration of the pipeline.

03

For telescopic iron pipes, we adopt a double-layer iron pipe design to reduce pipeline oil leakage caused by pipeline vibration and reduce the failure rate.

04

The bucket cylinder is placed outside the arm, and the cylinder and connecting rod assembly are replaced as a whole. Our maintenance is more convenient, and the bucket retraction angle for excavation is better.

The reel adopts enlarged spring piece

The box is made of LG700 high strength material

Bearing part with multi-layer reinforced

Excavator Telescopic Boom

Four-layer steel wire high pressure hose, more durable

Bucket cylinder hose design avoids oil leakage caused by hose vibration, and the hose can be replaced without dismantling the arm, improving its service life

The pivot end is reinforced with multiple layers to withstand greater excavation forces

22-ton strong bucket cylinder

The exposed bucket cylinder can be replaced without disassembling arm, which is convenient for maintenance

Specification

Two Section Telescopic Arm Configuration

1. A set of telescopic arm
2. Eight high-pressure hoses
3. Nine pins
4. A standard bucket
5. A two-way foot switch
6. A bucket cylinder
7. A set Linkage

Excavator (ton)	Maximum Digging Depth(mm)	Effective Length (mm)	Bucket Capacity(cbm)	Cylinder (ton)	Counterweight (ton)
12-15	10000	8170	0.25-0.35	6	-
20-25	12000	8700	0.4-0.45	20	-
20-25	14000	10680	0.3-0.45	20	1-2T
30-35	16000	12080	0.6-0.8	30	-

Company Profile

开平合众机械集团有限公司位于广东省开平市沙涌镇山脚工业区，是一家集研发、生产、销售为一体的企业。公司拥有一流的技术研发力量，承接各种非标定制产品。公司拥有先进的生产设备，引进了多条国际先进的生产线，配备了专业的技术人员，为客户提供高质量的产品和服务。公司自成立以来，始终秉承“质量第一、客户至上”的经营理念，赢得了广大客户的信赖和支持。公司主要产品有：挖掘机、装载机、叉车、搅拌车、泵车等。公司产品远销国内外，市场占有率不断提高。公司将继续加大研发投入，不断提升产品质量和服务水平，为客户提供更加优质的产品和服务。

Established in 2018, Kaiping Zhonghe Machinery Manufacturing Co., Ltd. is a combination of manufacturing and trading, specializing in customizing different kinds of excavator boom arms and attachments. Our products, including excavator long boom, standard boom, 2.5 boom, telescopic boom, 3.5 boom, standard boom, standard boom, boom, and ripper, have been selling well in more than 40 countries and areas. We are located in Cuihu New District, Kaiping City, Jiangmen City, Guangdong Province, China, and we have a 10000㎡ steel structure workshop with a large number of high precision processing equipment and a strong and cohesive team of over 100 experienced technical staff, 50 working workers with over 1 year experience, 30 senior designers, and a high-tech R&D team (20+ years of customization, 100+ technical patents), and production system (5+ years quality control and cost control), and a well-trained service team. Our annual output of various types of excavator boom arms can reach up to 400 sets. Kaiping Zhonghe Machinery Manufacturing Co., Ltd. are committed to providing our customers with products of the highest quality at a reasonable price, with quick response and attentive service. We strive to uphold our core principles of "Honest Quality, Security Management, and Customer Satisfaction".

团队风采 Our Team

千人同心 则得千人力 万人异心 则无一人之用

The power of knowledge, the power of the power of unity and dedication, we will gets.

PRODUCTION ADVANTAGES

ZHONGHE triple quality control system

The first system is the technical design drawing review mechanism,
The second system is the semi-finished product review mechanism,
(each process has a detection testing for the previous process)
The third system is the finished product testing.
(Before painting, the overall inspection is carried out to check whether the design size matches the welding size, and whether the installation size meets the design requirement.)
To sum up, every single ZHONGHE product has been passed the above three-stage inspection system to ensure that is qualified before shipping.

The equipments we have:

Large double-sided floor boring machine

CNC plasma cutting machine

Automatic edge milling machine

Environmentally friendly spray booth

Production Process

Exhibition

OUR CUSTOMERS

Our products are stable used in Australia,
New Zealand, Norway, Sweden, USA,
Canada, Austria, Ireland, Britain, Malaysia,
Philippines, Mauritius, Reunion, Kenya,
Ecuador, Chile, etc

Postive Feedback

PACKING & DELIVERY

Shipping And Packaging

Our products have been sold to more than 60 countries, and our transportation methods include sea transportation, land transportation, and air transportation. Our packaging is wooden box packaging or stretch film packaging. The goods will be packed before shipment and then loaded into the container to ensure the safety of the goods.

FAQ

Q: Are you a manufacturer?

A: Zhonghe machinery offered a wide range of attachment parts for excavators and dozers. Such as long reach arm, demolition arm, telescopic arm, standard bucket, rock bucket, cleaning bucket, tilting bucket, etc. We know that the perfect combination of high-quality cast steel products and a moderate price is the key to the success.

Q: Why choose Zhonghe over any other companies?

A: We have a professional production team and design team to provide each customer with high-quality and personalized customer service to ensure correctness, so we have good reputation in China, and our annual sales are among the best in our country.

Q: What can I get from you?

A: 1. The product is made of Q355B steel, a superior and sturdy material on the market, and the steel is cut with a 45-degree slope and then gas welded, making it more sturdy and 30% longer lifetime than normal materials. 2. All accessories are included, no additional purchases are required. Professional online video guides installation to make installation worry-free. 3. Lifetime free online customer service consultation if you have any questions.

Q: How do I start to order?

A: Firstly, talk to our sales about your machine model, working conditions, special needs and deadline. Then our sales will give you proposals FYR. You will receive a quotation ASAP after confirming the proposal.

Q: What are your terms of payment?

A: We prefer T/T (50/50) through Ali Credit Insurance as a trial order.

Q: Are you always delivered on time?

A: We can't promise about the sea freight but what we can do is shorten our lead time while keeping the same quality level. So there will not be any problem even if the sea freight is delayed for a couple of days.
