

Q355B Q690D Excavator Long Arm Long Reach Boom Arm for Sale

Our Product Introduction

for more products please visit us on excavatorlongarm.com

Basic Information

- Place of Origin: Guangdong Province, China
- Brand Name: Kaiping Zhonghe Machinery Manufacturing Co. Ltd
- Certification: CE, Patents, ISO9001
- Model Number: JCB0034
- Minimum Order Quantity: 1 set / piece
- Price: USD 100-17000 EXW price
- Packaging Details: Bubble / wooden cases / or others as you request
- Delivery Time: 5-20/works
- Payment Terms: T/T, L/C
- Supply Ability: 5 sets per week

Product Specification

- Material: Q355B Or Q690D Or As You Request
- Painting: Three Layers
- Suitable Excavators: Hitachi Komatsu Sany Zoomlion Cat Etc
- Suitable Excavator Models: 6ton - 200ton
- High Efficiency: Yes
- After-sales Service: Technical Support
- High Quality: Yes
- Warranty: 6 Months For Arm And Boom
- Highlight: Q355B excavator long reach boom, Q690D long arm excavator boom, excavator long reach boom arm

Product Description

Long Arm for Excavator - Elevate Your Excavation Capabilities

Product Overview of One Set of Excavator Long Reach Arm Long Boom:

Transform your excavator's performance with our state-of-the-art long arm attachment. Designed for heavy-duty tasks, this excavator long arm significantly extends the reach and versatility of your excavator, making it ideal for a variety of applications, including deep digging, trenching, and site preparation. With our long arm long boom for excavator, you can tackle projects that require precision and extended reach without compromising safety or efficiency.

Key Features of One Set of Long Reach Boom Long Reach Arm Excavator:

Extended Reach and Depth: Our long reach boom arm provides an impressive reach of up to 30 meters (approximately 100 feet), allowing you to access hard-to-reach areas with ease. Ideal for deep excavation work where traditional arms fall short.

Durable Construction: Crafted from high-grade steel and featuring reinforced joints, excavator long arm is built to withstand the rigors of heavy use. The robust design of long reach boom excavator ensures longevity and reliability, even in the toughest environments.

Optimized Performance: Enhanced hydraulic compatibility ensures smooth operation and quick response times, allowing operators to maximize productivity and efficiency during complex tasks.

Versatile Applications: Suitable for a wide range of tasks, including dredging, demolition, landscaping, and environmental remediation. The long arm excavator's adaptability makes it a valuable tool for contractors in various industries.

Safety First: Features such as overload protection and stability control enhance operational safety, reducing the risk of accidents and ensuring a secure working environment.

Easy Installation: Designed for straightforward installation on various excavator models, long boom arm excavator reach comes with all necessary components, making it easy to upgrade your excavator.

Three Layers with Four Passes Welding

Strong weldings ensure the boom end not easy cracking.

Perfect Middle Sleeve

The middle sleeve of big boom is processed as a whole, which is more firm and beautiful

Reinforcement of stress-bearing parts

Prolonger the service life-span & Not easy cracking

Premium Cylinder

Using high quality cylinder ensure no oil leakage and longer service life-span

Seamless Pipeline

Can bear huge stress and no oil leakage

Centralized lubrication system

Easy for later maintenance

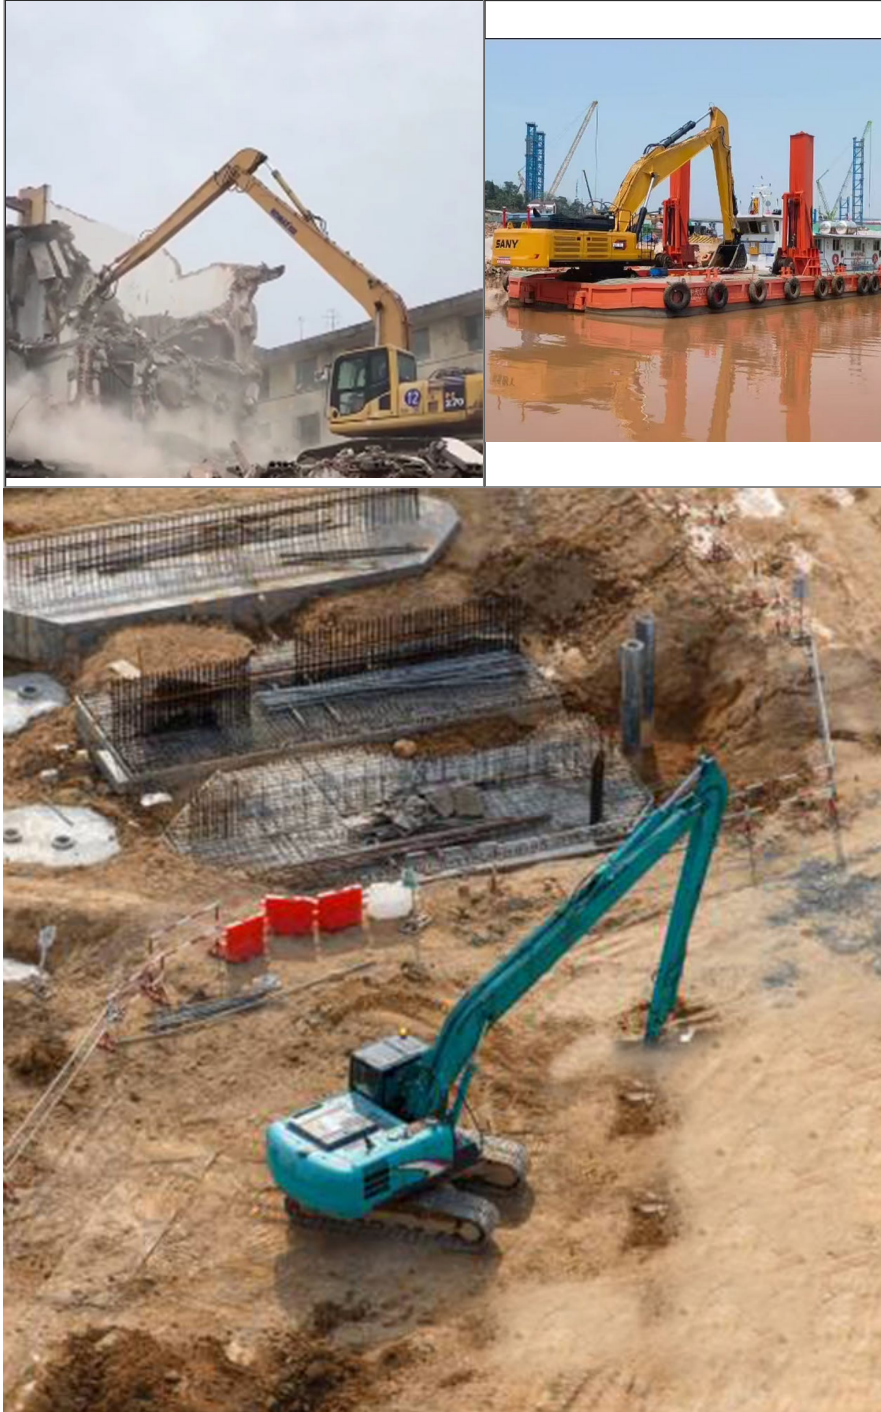

Specifications of One Set of Excavator Long Arm:

Excavator Model (ton)	Counterweight (ton)	Bucket Capacity (cbm)	Length of Long Arm (m)	Total Length of Long Arm (m)
24-28T	2T	0.4	11	19-20
		12T	9	
30-36T	0	0.6	11	
		20T	9	
37-39T	0	0.6	11	
		20T	9	
40-47T	0	0.8	11	
		25T	9

		20T	11	
48-55T	2.5T	0.8	13	
		20T	11	

Applications of One Set of Long Excavator boom:

Excavation for foundations and infrastructure
Dredging rivers and lakes
Slope stabilization and land reclamation
Demolition and material handling
Environmental cleanup efforts
Projects requiring deep trenching or access in tight spaces

Q&A of One Set of Long Boom Excavator:

Q: What are the benefits of using a long arm for excavators?

A: A long arm increases your excavator's reach and versatility, allowing you to perform tasks that would otherwise be difficult or impossible with a standard arm.

Q: Can I use the long arm for different types of excavation?

A: Absolutely! Our long arm is designed for various applications, including deep digging, trenching, and demolition.

Q: Is the long arm compatible with my existing excavator?

A: Our long arm is compatible with a wide range of excavator models. Please consult our compatibility chart or contact us for assistance.

Q: How do I maintain the long arm?

A: Regular maintenance involves inspecting hydraulic lines, lubricating joints, and checking for wear on critical components. Follow the manufacturer's guidelines for optimal performance.

Q: What types of attachments can I use with the long arm?

A: You can use various attachments such as buckets, hammers, and grapples, depending on your specific project requirements.

Q: How quickly can I receive my long arm after ordering?

A: Delivery times vary based on location and stock availability. We strive to provide timely delivery and will inform you of the estimated arrival date upon order confirmation.

Why Choose Us?

As a leading provider of high-quality excavator attachments, we are committed to delivering products that enhance performance and productivity. Our long arm for excavator is engineered to meet the highest standards of quality and safety, ensuring that you get the best value for your investment. With exceptional customer service and support, we are here to assist you every step of the way.

Contact us today to find out how our long arm for excavators can revolutionize your operations!
