

Sany 215 Telescopic Arm - No.1 Excavator Sales Leader

Our Product Introduction

for more products please visit us on excavatorlongarm.com

Basic Information

- Place of Origin: Guangdong Province, China
- Brand Name: Kaiping Zhonghe Machinery Manufacturing Co. Ltd
- Certification: CE, Patent, ISO
- Model Number: SSB006
- Minimum Order Quantity: 1 set / piece
- Price: USD 199.00-USD18999.00
- Packaging Details: Bubble / wooden cases
- Delivery Time: 5-20/works
- Payment Terms: T/T, L/C
- Supply Ability: 5 sets per week

Product Specification

- Material: Stronger Q690D
- High Efficiency: YES
- Digging Depth: 20m 22m 25m 30m 32m
- Clamshell Bucket: 1cbm 1.5cbm 2cbm 2.5cbm 3cbm
- Color: Red, Yellow, Blue White Customized
- Suitable Excavators: 6Ton - 65Ton
- Suitable Working Environment: Construction, Digging Sand Soil Silt Gravel
- High Quality: Yes
- Highlight: Sany 215 telescopic excavator arm, telescopic dipper arm with warranty, excavator telescopic arm for heavy duty

Product Description

Product Description: Telescopic Dipper Arm

Introducing our state-of-the-art telescopic dipper arm, designed for optimal performance in demanding excavation tasks. Our excavator telescopic boom factories utilize advanced manufacturing techniques to ensure durability and efficiency. This silt telescopic boom arm is engineered for precise digging in silt-heavy environments, making it ideal for various construction and dredging applications.

Our clamshell telescopic arm option provides enhanced versatility, allowing operators to tackle a wider range of projects with ease. With a reach of up to 30m, 32m, this telescopic excavator arm offers outstanding maneuverability and depth, ensuring you can reach those hard-to-access areas effectively.

We pride ourselves on being the sales No. 1 excavator telescopic arm provider in the industry, thanks to our commitment to quality and customer satisfaction. Our telescopic excavator boom Q355B is crafted from high-strength materials, ensuring it can withstand the toughest conditions while maintaining performance.

Whether you need a robust solution for large-scale excavation projects or a reliable arm for everyday tasks, our telescopic dipper arm is your best choice. Experience the difference with our innovative technology and unmatched reliability.

Digging Depth(m)	Excavator Model(ton)	Clamshell Bucket Capacity(cbm)	Counterweight(ton)
20-22m	30-33T	1.5cbm	0
	35-38T		0
25m	30-33T	1.5cbm	3T
	35-38T		0
	35-38T	2.2cbm	6T
	40-50T		0
26-30m	36-50T	1.5cbm	5T
		1.5cbm	5T
		2cbm	6T
		2cbm	6T
		2.2cbm	7T
		2.2cbm	7T
31-32m	40-50T	2.2cbm	6T
		2.2cbm	6T
31-32m	40-50T	2.2cbm	7.2T
		2.5cbm	7.2T

Key Features of One Set of Excavator Telescopic Dipper Arm:

Durable Construction: Built from high-quality materials for longevity (Material: BS900E).

Versatile Applications: Ideal for various excavation tasks, including silt and clamshell operations.

Extended Reach: Up to 20m 25m 30m 32m for deep digging capabilities.

Top Seller: Recognized as the leading excavator telescopic arm in the market.

Four pulley design

There are two sliding wheels on the top and two on the bottom, which separate the high-pressure hose and the wire rope to reduce mutual wear. Less wear can extend the service life.

Adopt 30mm main rope

We use thicker wire ropes, which can withstand greater tension, are not easy to break, and withstand greater pressure. The wire ropes are highly wear-resistant and have a long service life.

26mm auxiliary wire rope

Here is the auxiliary wire rope, which is used to make the telescopic arm retractable when it is extended horizontally.

Ningbo connector

It is made of metal and has high compression resistance and expansion capacity. It is easy to load and unload, and can be loaded and unloaded freely.

High Quality----Nylon Sliders

Siding block, it is nylon material, it can reduce grinding. Our sliding wheel is POM Material, with high mechanical strength and rigidity.

lubrication concentrate system

Many holes, many holes on the top and at the side, it is easy and convenient for the operator to refill the lubrication oil, they all concentrate on the front of arm.

Production Details of One Set of Excavator Telescopic Dipper Arm:

Material: Constructed from high-strength BS900E steel, our telescopic arm for excavator are designed to withstand the most challenging conditions while maintaining integrity and performance.

Design: Features a robust yet lightweight design for improved handling and ease of operation, making it suitable for both heavy-duty and intricate tasks.(Construction work, digging foundation pits, tunnels, etc)

Quality Assurance: Each unit undergoes rigorous testing and quality control to ensure compliance with industry standards, providing you with a reliable and efficient tool for your projects.

Every plate is cut by **Plasma and flame integrated feeder**
Features: **less deformation**

Double-sided boring lathe

After the excavator boom and arm are assembled, the pins on the boom are drilled to ensure that the pins on the boom are parallel to each other and the cross section of the pin hole is perpendicular to the pin. The double-sided boring machine of the boom makes the hole position more accurate and the quality higher.

Make sure the cross section of the pin hole is perpendicular to the shaft.

Make sure the axis is parallel to the axis

Make sure the cross section of the pin hole is perpendicular to the shaft

Make sure the axis is parallel to the axis

Proceeded by Large Floor-Standing Double-Sided Boring and Milling Lathe

With its dual-sided capabilities, this lathe allows for simultaneous boring and milling operations, significantly reducing cycle times and increasing productivity. The advanced control system ensures precise adjustments and reliable performance, while the heavy-duty construction provides stability and durability even under the most demanding conditions.

Feedback from Clients

from Jimmy:
cool, the telescopic boom
works effectively. suitable for
grabbing.

from Michael:
suitable for digging caisson.
save energy.

from Tonny:
Very excellent telescopic boom.
on my excavator suitably. perfect

from Tom:
The boom works very good.
safe and balanced operation
very nice service.
