

Top-Quality Telescopic Arm for Excavators - Ideal for Construction and Dredging Projects

Our Product Introduction

for more products please visit us on excavatorlongarm.com

Basic Information

- Place of Origin: Guangdong Province, China
- Brand Name: Kaiping Zhonghe Machinery Manufacturing Co. Ltd
- Certification: CE, Patent, ISO
- Model Number: HB007
- Minimum Order Quantity: 1 set / piece
- Price: USD 199.00-USD10999.00
- Packaging Details: Bubble / wooden cases
- Delivery Time: 5-20/works
- Payment Terms: T/T, L/C
- Supply Ability: 5 sets per week

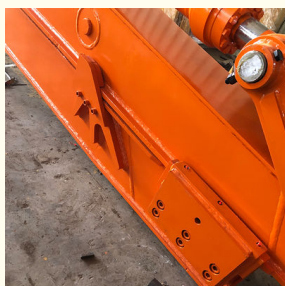

Product Specification

- Digging Depth: 6m 8m 10m 12m
- Suitable Working Environment: Digging House Foundation Pits, Deep Pits, Caissons
- Color: Red, Yellow, Blue White Customized
- OEM/ODM: YES
- High Efficiency: YES
- Suitable Excavators: 6Ton - 60Ton
- Highlight: excavator telescopic arm for construction, telescopic boom for dredging projects, excavator telescopic arm with warranty

Product Description

Unlock the full potential of your excavation projects with our advanced telescopic arm for excavator. Designed for maximum reach and flexibility, excavator telescopic arm is ideal for a wide range of applications, from deep digging to material handling.

Key Features of One Set of Excavator Long Reach Boom and Telescopic:

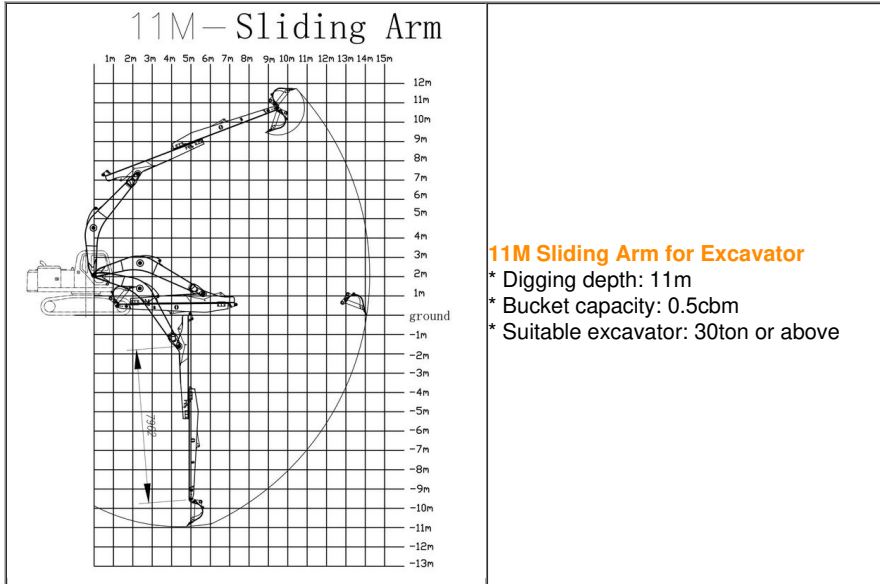

Extended Reach Capability: The telescopic design allows for impressive extension, enabling operators to access hard-to-reach areas with ease and perform deep excavations efficiently.

Robust Build Quality: Constructed from high-strength materials, our excavator telescopic arm for sale ensures durability and reliability, even in the most challenging environments.

Precision Control: Engineered for smooth operation, the excavator provides exceptional accuracy during digging, grading, and loading tasks.

Versatile Attachments: Compatible with various attachments, including clamshell buckets, standard buckets and grapples, enhancing the versatility of your excavator for different projects.

User-Friendly Interface: Equipped with intuitive controls, the excavator telescopic arm allows operators to easily manage its functions, improving overall productivity.

Suitable Working Environments of Telescopic Arm for Excavator:

Our telescopic excavator excels in various settings, including:

Construction Sites: Ideal for foundation work, digging caissons, trenching, and site preparation.

Landscaping Projects: Efficient for grading and moving large volumes of soil and debris.

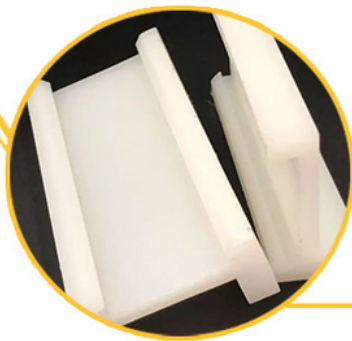

Why Choose Our Telescopic Excavator?

With our commitment to quality and innovation, the telescopic excavator arm is designed to meet the demands of modern excavation projects. Experience enhanced performance, durability, and versatility, making it a vital addition to your machinery fleet. Upgrade your operations today and discover the advantages of our state-of-the-art telescopic excavator!

ZHONGHE Sliding Arm

- Compact alternative to a larger model, capable of digging further, and with a significantly smaller footprint.
- Meets the need for powerful machines for deep excavation projects in confined areas.

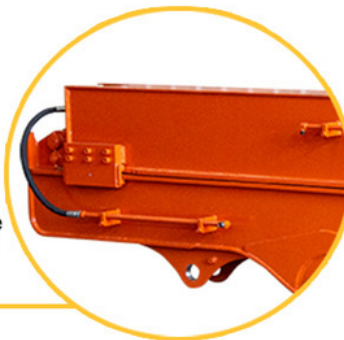

Easy to Maintain

ZHONGHE sliding arm adopt antiwear nylon sliding plates rather than traditional pulley, which can be replaced quickly and conveniently.

Robust Sliding Structure

1. The lower cover of the upper sliding arm and the upper cover of the lower fixing arm are both 20mm.
2. Cover plates are cut from a whole piece but not spliced, so as to be more firm and not easy to deform.

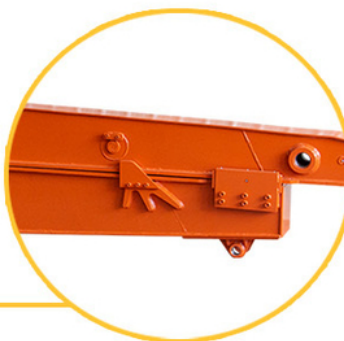

Avoid Oil Leakage

The double oil seal design for the built-in telescopic cylinder prevents hydraulic oil from leaking, prolongs the service life of the sliding cylinder.

Long Service Life

1. Double limit design of the sliding cylinder prevents cylinder jolting and overpulling.
2. Steel sliders are welded between the skateboards to resist wear.

01

Panel is cut by CNC plasma machine with less deformation

02

Tolerance within 5-10um, ensure the accuracy of hole

Production advantage

03

Environmentally friendly verified spraying room, professional and beautiful paint finish
