

Custom Excavator Tunnel Arm with Breaker / Bucket

Our Product Introduction

for more products please visit us on excavatorlongarm.com

Basic Information

- Place of Origin: Guangdong Province, China
- Brand Name: Kaiping Zhonghe Machinery Manufacturing Co. Ltd
- Certification: CE, ISO, Patents
- Model Number: TA006
- Minimum Order Quantity: 1 set / piece
- Price: USD 199.00-USD8999.00
- Packaging Details: Bubble / wooden cases / or others as you request
- Delivery Time: 5-25/works
- Payment Terms: T/T, L/C
- Supply Ability: 7 sets per week

Tunnel Arm

Product Specification

- Material: Q355B Or Q690D Or As You Request
- Suitable Excavator Model: 10 Ton- 65 Ton Excavator
- OEM / ODM: YES
- Suitable For: Digging Tunnels, House Foundation Pits, Digging Road Etc
- Seamless Pipelines: YES
- Warranty: 6 Months
- Highlight: custom excavator tunnel arm with breaker, excavator tunnel arm with bucket, heavy-duty excavator tunnel arm

Product Description

Introducing our excavator shorten heavy duty rock boom and arm, designed specifically for demanding excavation tasks in challenging environments. This robust attachment is engineered to provide exceptional strength and versatility, making it ideal for projects requiring deep digging and heavy material handling.

Key Features of One Set of Excavator Tunnel Arm for Sale:

Heavy-Duty Construction: Our excavator shorten arm is built from high-strength materials (Q355B / Q690D), ensuring durability and reliability even in the toughest conditions, such as rock and hard soil.

Enhanced Reach and Precision: The excavator shorten boom and arm configuration allows for optimized reach and precise control, facilitating efficient operations in confined spaces.

Versatile Applications: Perfect for tunneling and excavation projects, this attachment is especially effective as an excavator tunnel arm/shorten arm, providing the necessary strength for heavy-duty tasks.

Customizable Options: The customizable excavator tunnel arm can be tailored to meet specific project requirements, ensuring maximum efficiency and performance.

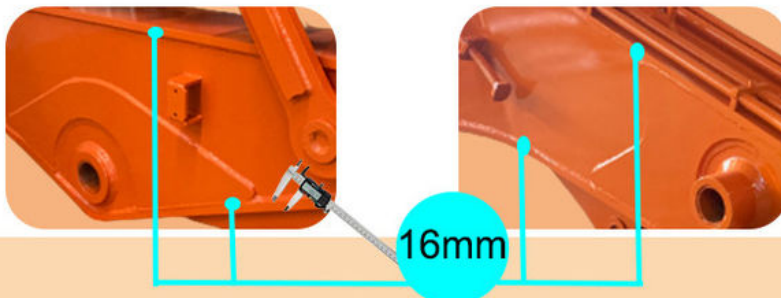

Compatibility: Designed to fit a variety of excavator models, our excavator tunnel boom enhances the capabilities of your existing machinery.

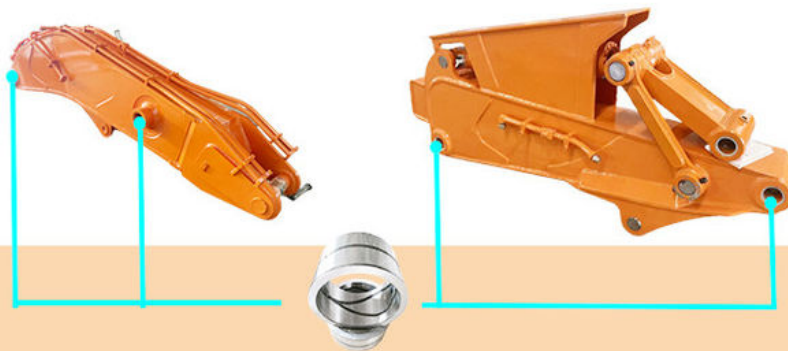

The upper and lower cover plates are thicker.
longer life-span & not easy cracking

Precision pipeline, not prone to bursting and oil leakage

The upper plate and lower plate are thicker
& Multiple welding
Not easy cracking

All adopt alloy steel sleeves
longer service life-span

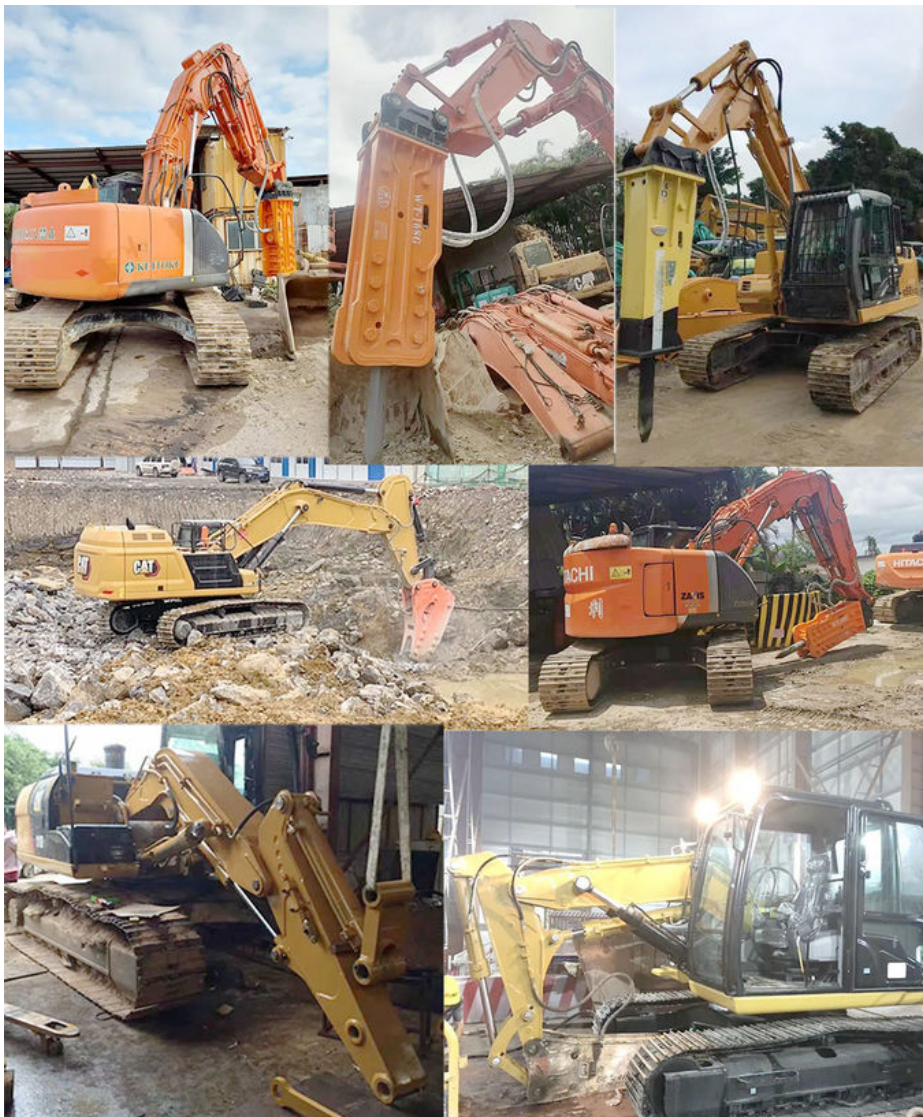

Suitable Working Environments of One Set of Tunnel Arm for Excavator:

The excavator shorten heavy duty rock boom and arm excels in various settings, including:

Mining Operations: Ideal for digging in rocky terrains and handling heavy materials.

Tunneling Projects: Perfect for excavation tasks in confined spaces, providing the necessary strength and reach.

Construction Sites: Effective for heavy-duty tasks requiring precision and durability.

Specifications of One Set of Excavator Shorten Arm / Excavator Tunnel Arm

Excavator Model(ton)	Boarding Thickness(mm)	Weight(KGS)
6-8T	10mm	590
		380
10T-15T	14mm	1130
		900
20-24T	16mm	1300
		1050
20-24T(Double Cylinders)	16mm	1850
		1200
30-36T	25mm	2500
		2600
45-50T	30mm	3200
		3000
