

Maximizing Efficiency: The Long Reach Boom Excavator Revolution

Our Product Introduction

for more products please visit us on excavatorlongarm.com

Basic Information

- Place of Origin: Guangdong Province, China
- Brand Name: Kaiping Zhonghe Machinery Manufacturing Co. Ltd
- Certification: CE, Patents, ISO9001
- Model Number: JCB008
- Minimum Order Quantity: 1 set / piece
- Price: USD 30-17000 EXW price
- Packaging Details: Bubble / wooden cases / others as you request
- Delivery Time: 5-25/works
- Payment Terms: T/T, L/C
- Supply Ability: 5 sets per week

Product Specification

- Suitable Excavators: 6Ton - 200Ton
- Excavator Brands: Hitachi Komatsu Sany Zoomlion Cat Etc
- OEM / ODM: YES
- Long Reach: 10m 12m 16m 18m 20m
- Painting: Yellow, Red, Blue, White Etc
- Material: Q355B Or Q690D Or As You Request
- Highlight: **long reach boom excavator, efficient excavator long reach, excavator boom with warranty**

Product Description

Introduction of one set of long reach boom excavator:

Extend the capabilities of your excavator with our high-quality long reach arm / long reach boom! Kaiping Zhonghe Machinery Manufacturing Co. Ltd provides durable and reliable long reach solutions, increasing your excavator's reach and productivity for applications like dredging, deep excavation, and demolition. Our long reach arms are made with high-strength steel and precision engineering for maximum performance and longevity. Contact us today to learn more and get a quote!

Application of long reach boom excavator:

Need extra reach for your excavator? Zhonghe Machinery's long reach booms are ideal for a variety of challenging applications, including waterway maintenance, environmental remediation, and construction projects with limited access. Our excavator long reach arms allow you to work efficiently and safely from a distance, reducing the need to reposition the machine. Built to last and designed for optimal performance. Inquire now!

Work in Dredging Projects:

Increased Efficiency: Reduce the need for repositioning your excavator, saving time and labor costs during dredging operations.

Improved Safety: Work from a safe distance, minimizing risks associated with unstable banks or hazardous environments.

Custom Solutions: We offer customization options to ensure our long reach arms meet your specific dredging requirements.

Work in Construction Work:

Extended Reach: Our long reach boom arms enable excavators to reach farther, allowing for efficient digging, material handling, and site preparation without the need for constant repositioning.

Robust Design: Constructed from high-quality materials, our long reach solutions are engineered to withstand the rigors of construction work, ensuring durability and reliability on the job site.

Versatile Applications: Whether you're excavating foundations, grading land, or performing utility installation, our long reach arms enhance your excavator's capabilities for a wide range of construction tasks.

Work in Demolition Projects:

Extended Reach: With our long reach boom arms, you can access hard-to-reach areas, allowing for precise and effective demolition of structures without the need for extensive repositioning.

Heavy-Duty Construction: Built from high-strength materials, our long reach solutions are engineered to handle the demands of demolition work, ensuring durability and reliability under tough conditions.

Versatile Applications: Ideal for tearing down buildings, removing structures, and clearing debris, our long reach arms enhance your excavator's capabilities for a variety of demolition tasks.

Welcome to send the information of your projects to us! Our team will tailor our solution according to your requirements.

Features of one set of long reach boom arm:

Zhonghe Machinery is a leading provider of long reach arms and booms for excavators. Our products feature: Extended reach capabilities (up to 30+ meters), High-tensile steel construction, and Customization options to fit your specific needs. Benefit from increased efficiency, improved safety, and greater versatility on your job site. Get in touch with us to discuss your project requirements!

Excavator Model(ton)	Counterweight(ton)	Bucket Capacity(cbm) / Bucket Cylinder(Ton)	Length of Arm and Boom(m)	Total Length of Arm and Boom(m)

Benefits of one set of long boom excavator:

Maximize your excavator's potential with our long reach arm from Zhonghe Machinery! Experience increased operational efficiency by accessing difficult or distant areas from a single stationary position. Our long reach booms reduce the need to move the machine frequently, which is crucial in sensitive environments or urban areas with limited space. Perfect for deep excavation, river dredging, and road construction. Contact us today!

Three Layers with Four Passes Welding

Strong weldings ensure the boom end not easy cracking.

Perfect Middle Sleeve

The middle sleeve of big boom is processed as a whole, which is more firm and beautiful

Reinforcement of stress-bearing parts

Prolonger the service life-span & Not easy cracking

Premium Cylinder

Using high quality cylinder ensure no oil leakage and longer service life-span

Seamless Pipeline

Can bear huge stress and no oil leakage

Centralized lubrication system

Easy for later maintenance
