

20T Forest Log Grapple Garden Mechanical Claw Excavator Thumb Grab Excavator Grapple for PC200

Our Product Introduction

for more products please visit us on excavatorlongarm.com

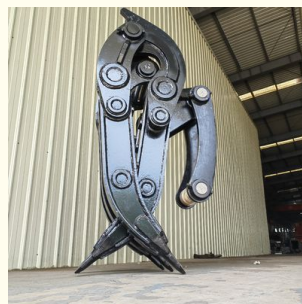

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Zhonghe
- Certification: CE
- Minimum Order Quantity: 1 piece
- Price: \$720/pieces
- Packaging Details: wood case
- Delivery Time: 5-10 work day
- Payment Terms: T/T
- Supply Ability: 50 Piece/Pieces per Month

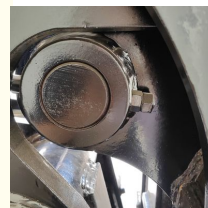

Product Specification

- Name: Excavator Attachments
- Type: Mechanical Grapple
- Material: Q355B
- Apply To: Grab Timber And Steel
- Suitable Excavator(ton): 6-50T
- Weight: 1000
- Core Components: Bearing
- Warranty: 3 Months
- MOQ: 1 PCS
- OEM: Support

Product Description

PRODUCT DESCRIPTION

Our Product Introduction

Mechanical Grapple		
Model	Weights(kgs)	Opening(mm)
3-5T	300	1250
6-8T	500	1450
10-16T	550	1700
17-20T	950	1900
21-24T	950	2050
25-30T	1100	2200
31-35T	1300	2300
36-40T	1550	2400
41-45T	1700	2500

Features of Mechanical Grapple

- The main board is reinforced with many ribs, and the teeth are made of wear-resistant blocks to extend its service life.
- Adopt robust 45# Cr pin, bearing greater forces.
- Anti-skid blocks are built-in to increase efficiency

Robust structure

1. The ear seat and grab body are connected firmly by multi-reinforced tendon plates (so that the oil cylinder force conducts directly on the grabber, and prolongs the service life).

lighter and durable

The improved grabber is lighter, more durable and less likely to damage the arm than the original version.

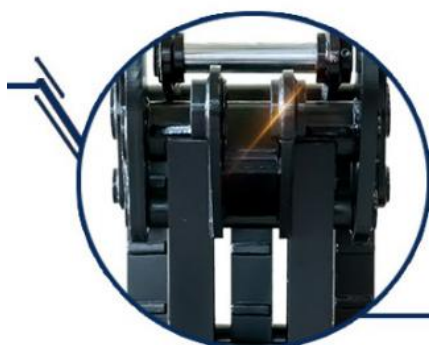

Antiwear

- 1 The teeth is made of integral antiwear blocks
- 2 Oil can be added separately and conveniently to increase service life

Long service life

- 1 The main body and main board are reinforced by tendon plate to disperse the stress
- 2 Thickened 45# steel tube, can withstand greater forces

Easy to maintain

Oil can be added separately and conveniently to increase service life

BETTER EQUIPMENT BETTER WORK

COMPANY PROFILE

Founded in 2018, Zhonghe heavy industry independently develops and produces construction machinery parts such as excavator lengthening arm, mountain pulling arm, two-stage telescopic arm, sliding arm, three-stage telescopic arm, three-stage demolition arm, rock arm, tunnel arm, bucket, pile driving arm, wood grabber, steel grabber and scarifier. It is widely used in weathered stone crushing, subway construction, forestry logging, municipal pipeline engineering, river dredging, building demolition, Larsen steel sheet pile driving and pulling, pile foundation engineering, resource recovery and other engineering industries. The products are sold in more than 40 countries and regions. Provide one-year after-sales service with after-sales warranty and deliver on time. 24-hour online service can provide OEM production.

Our office has more than 15 technical people who have designers, engineers, and sales. Our workshop have more than 30 skilled workers, have material group, a machining group, and an assembly group, each group we arrange a group leader to supervise to make sure the professional worker complete their step great job and hand them into the next group, We are strong and united, working hard for more development and better tomorrow!

01

Panel is cut by CNC plasma machine with less deformation

02

Tolerance within 5-10um, ensure the accuracy of hole

Production advantage

03

Environmentally friendly verified spraying room, professional and beautiful paint finish

04

GMAW-Gas Metal Arc Welding

CUSTOMER FEEDBACK

FAQ

1. How do I start to order?

Firstly, talk to our sales about your machine model, working conditions, special needs and deadline. Then our sales will give you proposals FYR. You will receive a quotation within 24 Hours after confirming the proposal.

2. How can we guarantee quality?

Every single ZHONGHE product has been passed three-stage Quality Control System to ensure that is a qualified product before shipping.

3. Are you always delivered on time?

We can't promise about the freight but what we can do is shortening our lead time while keep the same quality level. So there will not be any problem even if the sea freight delay for a couple days. Our annual output of various types of excavator boom arms can reach 600 sets.

4. Why should I buy from you but not other suppliers?

We can give you a moderate price with the same quality as we are original manufacturer. We always use high quality material, professional design, keep high quality control during the industry.

5. What's your terms of payment?

We prefer T/T (50/50) through Ali Credit Insurance as a trial order.
