

Excavator Telescopic Arm Excavator Teledipper 10m 12m

Our Product Introduction

for more products please visit us on excavatorlongarm.com

Basic Information

- Place of Origin: Guangdong Province, China
- Brand Name: Kaiping Zhonghe Machinery
- Certification: CE, Patent, ISO
- Model Number: HB007
- Minimum Order Quantity: 1 set / piece
- Price: USD 199.00-USD8999.00
- Packaging Details: Bubble / Wooden Cases/ Others as you request
- Delivery Time: 10-20/works
- Payment Terms: T/T, L/C
- Supply Ability: 5 sets per week

Product Specification

- Material: Q355B Or Q690D Or As You Request
- Suitable Excavator: Komatsu, Sany, Sumitomo, Cat Etc
- Digging Depth: 8m 10m 12m 15m 16m
- Quality: Premium
- Color: Red, Yellow, Blue White Customized
- ORM / ODM: Yes
- Cylinder: High Quality

Premium Sliding Arm Set for Excavators

Product Description of One Set of Telescopic Arm for Excavator:

Unleash the full potential of your excavator with our Premium Sliding Arm Set. Designed for maximum efficiency and durability, this set is the perfect upgrade for construction professionals looking to enhance their machine's performance. Crafted from high-quality materials, our sliding arm ensures optimal functionality and longevity, making it an essential addition to your equipment arsenal.

Innovative Design for Enhanced Performance

The sliding arm for excavator features a state-of-the-art design that improves reach and maneuverability, allowing operators to navigate tight spaces with ease. Its adjustable length adapts to various excavation tasks, from digging to lifting, offering unmatched versatility. No matter the job requirement, this excavator telescopic arm set guarantees precision in every operation, ensuring you complete tasks efficiently and effectively.

Long Reach: 10m 12m

High Efficiency: Yes

Bucket Capacity: 0.5cbm
0.6cbm 0.8cbm 1cbm

Cylinder Quality:
Premium

Built to Last

Durability is at the forefront of our telescopic arm for excavator's design. Constructed from resilient steel, it can withstand the

harshest conditions and heavy workloads without compromising functionality. Our rigorous testing process ensures that each arm meets the highest standards of strength and reliability, giving you peace of mind when utilizing it in demanding environments. Telescopic arm for excavator promises to be a lasting investment that won't let you down.

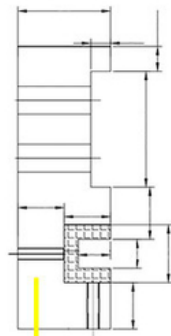

Easy Installation

Say goodbye to complicated setups! The Premium Sliding Arm Set is designed for straightforward installation, requiring minimal downtime. With clear instructions and all necessary mounting hardware included, you can get back to work in no time. Our excavator telescopic boom's compatibility with a wide range of excavator models also means you won't have to worry about fitting issues, making it an ideal choice for diverse machinery.

Customer Satisfaction Guaranteed

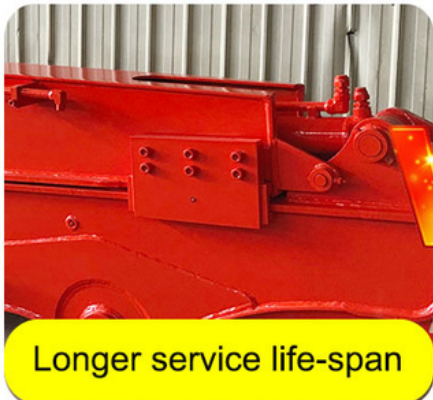

We prioritize customer satisfaction and stand by the quality of our products. Our telescopic arm with bucket for excavator comes with a comprehensive two-year warranty, ensuring that if you encounter any manufacturing defects, we've got you covered. Our dedicated customer support team is always ready to assist with any inquiries, ensuring you have a seamless experience from purchase to installation and beyond.

Why chose our excavator long reach boom and telescopic arm?

Thicken

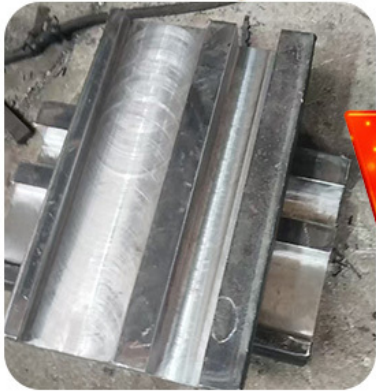

Reduce cracking and failure rate

Longer service life-span

Easy to fail and crack

VS

Cut from one plate

stronger

avoid deformation

Welded together

easy to crack

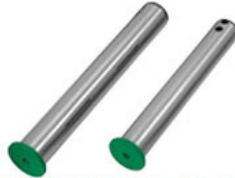

its easy for the pipeline jumps up, causing damage to the pipeline.

Welded on, less vibration and longer service life.

The pin is too small, has a short service life, and does not have enough bearing capacity.

The pin uses the original pin size and is more sturdy.

Frequently Asked Questions (FAQs)

Q1: Will this sliding arm set fit my excavator model?

A1: Our Premium Sliding Arm Set is designed to be compatible with a wide range of excavator models. Please refer to our compatibility chart or contact our customer service for specific inquiries regarding your machine.

Q2: What materials are used in the construction of the sliding arm?

A2: The sliding arm is constructed from high-quality, durable steel, ensuring longevity and resistance to wear and tear under heavy workloads.

Q3: Is the installation process complicated?

A3: Not at all! The installation process is straightforward and comes with easy-to-follow instructions. Most users can complete the setup without professional assistance.

Q4: What if I experience issues with my sliding arm set?

A4: We offer a comprehensive two-year warranty on our sliding arm set. If you encounter any issues, please reach out to our customer service team for immediate assistance.

Q5: Can I use this sliding arm for various excavation tasks?

A5: Absolutely! The adjustable design of the sliding arm allows for versatile use across a variety of excavation tasks, making it an invaluable addition to your equipment.

Upgrade your excavator today with our Premium Sliding Arm Set and experience unparalleled performance and reliability in every project!
