

Quarry Bucket Excavator Rock Bucket Heavy Duty Bucket High Quality Bucket Q355B 1-1.8 CBM for CAT PC SH ZX

Our Product Introduction

for more products please visit us on excavatorlongarm.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Zhonghe
- Certification: CE
- Model Number: YSD001
- Minimum Order Quantity: 1 piece
- Price: \$1750/pieces
- Packaging Details: wood case
- Payment Terms: T/T
- Supply Ability: 50 Piece/Pieces per Month

Product Specification

- Brand: Zhonghe
- Type: Rock Bucket
- Material: Q355B+NM400
- Weight: 1600kg
- Warranty: 3 Months
- Color: Customized
- Condition: 100% New Product
- Bucket Capacity: 1-1.8m³, or As Per Your Request
- Application: 20-38t Excavator
- Oem: Support
- After-sales Service Provided: Video Technical Support

Product Description

Our Product

Excavator Rock Bucket

Rock Bucket Customization

- *Applicable for all brand excavator.
- *Color, Capacity, material can do according to you.
- *Made of Q355B and NM400 steel with good strength and rigidity.

ZHONGHE MACHINERY

PRODUCT DESCRIPTION

Rock Bucket

HD rock bucket is applied for heavy duty occasions, especially for mining and quarry.

Different kinds of rock buckets

Excavator Rock Bucket

Improve your productivity with our Heavy Duty Rock Buckets (also known as Digging Buckets or Heavy Duty Buckets). Our rock buckets are unique on their extensive wear protection, high penetration teeth, fully integrated head mounts and dual radius design to ensure high strength capability and maximum attachment life. The new and improved design of our rock buckets is overall stronger and safer than other buckets on the market.

Structure: The main body of the standard bucket is welded from high-strength steel plates. The cutting edge at the front end is equipped with replaceable bucket teeth for efficient cutting into materials. Side blades are installed on both sides for cutting and protection, forming a sturdy and versatile excavation tool.

Material: We produce them with Q355 and NM400 materials to withstand harsh working environments.

Durability: Reinforced with wear-resistant parts (including hardened teeth or edges) for heavy-duty applications to extend service life.

Various sizes: Available in a variety of sizes to suit different excavator models and project requirements.

Excavator Rock Bucket			
Capacity / cbm	Model / ton	Weight / kgs	Material
0.5	10-15	600	Q355B Material
0.6	12-15	750	

0.7	15-18	790
0.8	18-20	860
1	20	1050
1.2	20-22	1200
1.3	22-25	1300
1.4	30	1450
1.5	30-35	1600
1.6		1850
1.7		1900

PRODUCT DESCRIPTION

Advantages of Rock Bucket

PIN QUALITY

Made of 1045 high-quality carbon steel that has undergone quenching and tempering processes, ensuring durability.

PERFORMANCE

The Heavy Duty Rock Bucket's superior design includes a fluid shape that enhances bucket-loading capabilities and maximises production, as well as increased heel clearance that reduces drag factor and mitigates abrasive wear without compromising on force and digging ability.

VERSATILITY

The heavy-duty design and fluid shape allow for easier bucket-filling capabilities and enhanced bucket-loading performance, with external wear resistance, making it suitable for a wide range of tasks.

DURABILITY

The heavy-duty construction of the bucket, made from high-tensile material with extensive wear production, ensures its durability and longevity, making it suitable for use in heavy-duty applications. Overall, our rock bucket is a reliable and versatile tool that can be used in a variety of projects.

COMPANY PROFILE

Kaiping Zhonghe Machinery Manufacturing Co., Ltd.

Founded in 2018, Zhonghe heavy industry independently develops and produces construction machinery parts such as excavator lengthening arm, mountain pulling arm, two-stage telescopic arm, sliding arm, three-stage telescopic arm, three-stage demolition arm, rock arm, tunnel arm, bucket, pile driving arm, wood grabber, steel grabber and scarifier. It is widely used in weathered stone crushing, subway construction, forestry logging, municipal pipeline engineering, river dredging, building demolition, Larsen steel sheet pile driving and pulling, pile foundation engineering, resource recovery and other engineering industries. The products are sold in more than 40 countries and regions. Provide one-year after-sales service with after-sales warranty and deliver on time. 24-hour online service can provide OEM production.

14000m² Workshop

We have more than 14000m² steel structure workshop with lots of high precision processing equipments.

R&D Team

We use precision drawing software to achieve the max working range under the premise of safe operation.

Skillful Workers

There are more than 60 skillful staffs, 30 welding workers with over 5 years welding experience.

Customized

1. Fit all brand.
2. Color, length, material are customized.
3. Extra pipeline can be added.

Prompt Lead Time

1. Our lead time is 7-15 days.
2. Our annual output of excavator boom arms can reach 600 sets.

100% Service

1. Online support within 24 hours.
2. Appointment video technical support.

PRODUCTION ADVANTAGES

Our factory has a complete range of production equipment, which is conducive to the production of our products, good quality and ensures product accuracy.

1. Panel is cut by CNC plasma machine with less deformation.
2. Tolerance within 5-10um, ensure the accuracy of hole.
3. Environmentally friendly verified sparying room.
4. GMAW-Gas Metal Arc-Welding.
5. Plasma cutting machines, boring machines, beveling machines, bending machines, etc. ensure accuracy.

ZHONGHE triple quality control system

The first system is the technical design drawing review mechanism,

The second system is the semi-finished product review mechanism,
(each process has a detection testing for the previous process)

The third system is the finished product testing.

(Before painting, the overall inspection is carried out to check whether the design size matches the welding size, and whether the installation size meets the design requirement.)

To sum up, every single ZHONGHE product has been passed the above three-stage inspection system to ensure that is qualified before shipping.

SHIPPING & PACKAGE

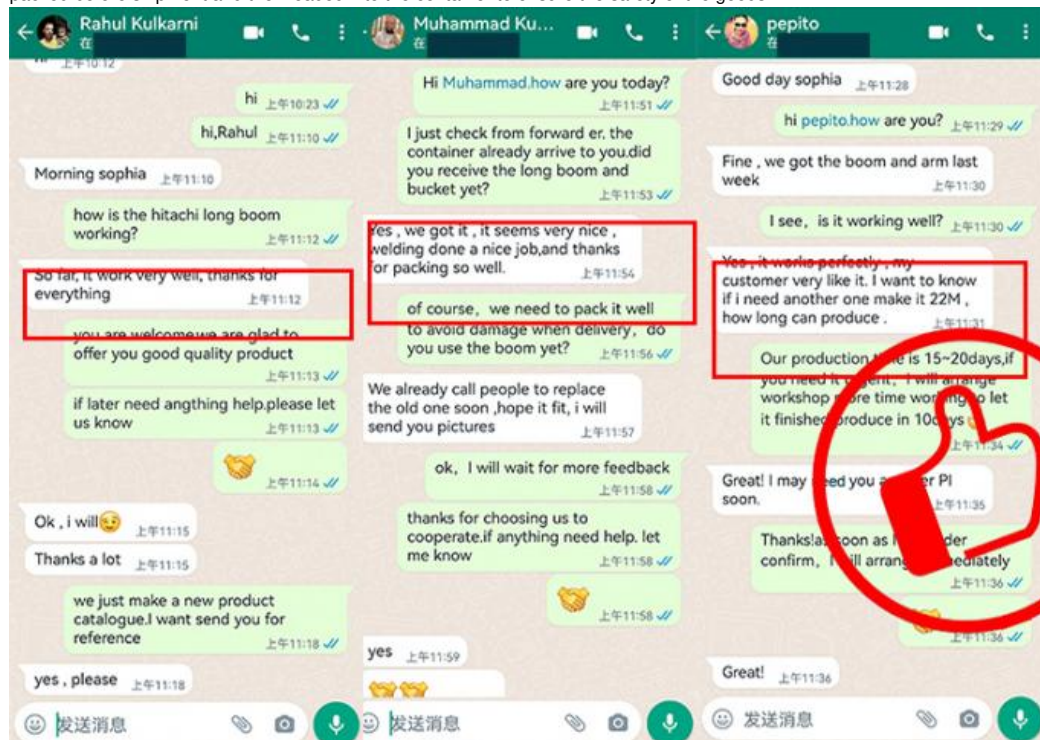

Package

Bubble bag packing for most products;
Wooden case for little products, like buckets;
Iron frame support for boom arms.
The accessories and package of excavator long boom arm are subjected to our final confirmation.

Our products have been sold to more than 60 countries, and our transportation methods include sea transportation, land transportation, and air transportation. Our packaging is wooden box packaging or stretch film packaging. The goods will be packed before shipment and then loaded into the container to ensure the safety of the goods.

**1. Who are we?**

We are based in Guangdong, China, start from 2018, sell to Southeast Asia(40.00%), Mid East(10.00%), North America(10.00%), South Asia(8.00%), Eastern Europe(8.00%), Oceania(8.00%), Eastern Asia(5.00%), Africa(5.00%), South America(4.00%), Northern Europe(2.00%). There are total about 51-100 people in our office.

2. How can we guarantee quality?

Always a pre-production sample before mass production;
Always final inspection before shipment;

3. What can you buy from us?

Excavator Long Reach Boom, Excavator Telescopic Arm, Excavator Demolition Arm, Excavator Grapple, Excavator Bucket

4. Why should you buy from us not from other suppliers?

With more than 60 employees, it has its own unique research and development team in more than 10000 square meters of steel structure standardized plant. The annual production of various arms is up to 600 sets, and various buckets are 6000 pieces.

5. What services can we provide?

Accepted Delivery Terms: FOB, CIF, EXW, CIP;
Accepted Payment Currency: USD, CNY;
Accepted Payment Type: T/T;
