

Construction Machinery Parts Q355B Rake Bucket Root Rake for 25-50ton Excavator

Our Product Introduction

for more products please visit us on excavatorlongarm.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Zhonghe
- Certification: CE
- Minimum Order Quantity: 1 piece
- Price: \$1200/pieces
- Packaging Details: wood case
- Delivery Time: 5-10 work day
- Payment Terms: T/T
- Supply Ability: 50 Piece/Pieces per Month

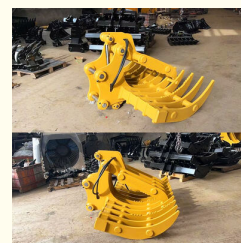

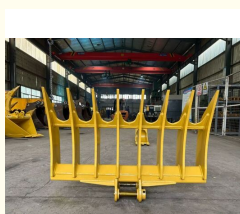

Product Specification

- Name: Excavator Attachments
- Type: Excavator Root Rake
- Application: Land Clearing And Site Preparation
- Color: Customer Required
- Warranty: 6 Months
- Material: Q355B+NM400
- After-sales Service Provided: Online Support
- Weight: 1124kg
- Condition: 100%new
- Packing: Wooden Box
- Oem: Support

Product Description

Our Product

Introduction of Excavator Root Rake Bucket

Rakes usually have a wide frame and 5-8 teeth, which can be chosen with or without teeth depending on the working conditions. It is mainly used for cleaning up in mining and water conservancy projects.

Main uses:

Cleaning work: When excavating garbage dumps, construction sites and other places, using an excavator with a rake for cleaning can improve construction efficiency.

Screening materials: Commonly used in riverbeds, sand fields and other places. Rakes can separate impurities of different sizes to improve resource utilization.

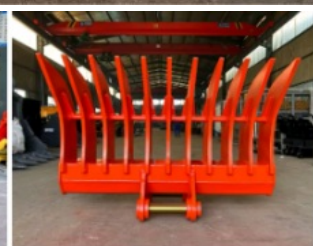

Land preparation: Turn over large pieces of soil and separate them into large pieces and fine materials through a sifter to facilitate subsequent construction.

Search work: When searching for metal, wood and other items in the wild, you can use an excavator with a rake to search and clean up. Depending on the needs of the operation, using an excavator rake can more effectively complete the task and improve construction efficiency.

COMPANY PROFILE

众合机械

Founded in 2018, Zhonghe heavy industry independently develops and produces construction machinery parts such as excavator lengthening arm, mountain pulling arm, two-stage telescopic arm, sliding arm, three-stage telescopic arm, three-stage demolition arm, rock arm, tunnel arm, bucket, pile driving arm, wood grabber, steel grabber and scarifier. It is widely used in weathered stone crushing, subway construction, forestry logging, municipal pipeline engineering, river dredging, building demolition, Larsen steel sheet pile driving and pulling, pile foundation engineering, resource recovery and other engineering industries. The products are sold in more than 40 countries and regions. Provide one-year after-sales service with after-sales warranty and deliver on time. 24-hour online service can provide OEM production.

Kaiping Zhonghe Machinery Manufacturing Co., Ltd. was established in 2018 as a manufacturing and trading consortium, specializing in customizing various excavator arm frames and accessories, such as each excavator long arm, disassembly arm, 2-3 section telescopic arm, tunnel arm, standard/rock bucket, gripper, ripper, etc., best-selling in over 40 countries and regions.

14000m² Workshop

We have more than 14000m² steel structure workshop with lots of high precision processing equipments.

R&D Team

We use precision drawing software to achieve the max working range under the premise of safe operation.

Skillful Workers

There are more than 60 skillful staffs, 30 welding workers with over 5 years welding experience.

Customized

1. Fit all brand.
2. Color, length, material are customized.
3. Extra pipeline can be added.

Prompt Lead Time

1. Our lead time is 7-15 days.
2. Our annual output of excavator boom arms can reach 600 sets.

100% Service

1. Online support within 24 hours.
2. Appointment video technical support.

Exhibition

PRODUCTION ADVANTAGES

The equipments we have:

Large double-sided boring machine

CNC plasma cutting machine

Automatic edge milling machine

Environmentally friendly spray booth

The production process:

PACKING & DELIVERY

FedEx
Federal Express

DHL
EXPRESS

ups

TNT
EMS

WORRY-FREE SHIPPING

We provide a full range of shipping methods for worry-free shipping.

Packing & Delivery

We use a variety of packing materials, including wooden crates, pallets, and other materials that are suitable for the specific product and shipment. Our team carefully inspects each package for quality assurance before shipping.

FAQ

1. Do you accept OEM? What is your minimum order quantity?

We accept OEM for every product that we produce. Only through mutual consultation can we meet all production requirements of our customers. The minimum order quantity is one piece or one unit.

2. Does your product have MOQ? How long is the production time?

Our production MOQ is 1pc, we accept custom design. With professional worker hard work and OT, our production time can shorten to 7~15 days, also will depend on the quantity you need. Details our sales will tell you.

3. What payment do you accept?

We accept TT transfer and alibaba pay, for TT, 30% deposit to arrange produce, 70% balance should be paid before sending out the goods, for alibaba pay, we can make a trade assurance for you to pay.

4. Why should I buy from you but not other suppliers?

As you know, we are the original factory for long reach boom, our price is the best, there are many foreign trade companies to ask us to quote the same product as our client, but finally clients choose us, because we are the original factory, our price is the best, you can do business with us directly to save time and cost, don't need through others. 5. What after-sale service can I get? Product gets guarantee period, when you install our goods, we have engineers to guide you to make every step is going well.
