

20Ton 30Ton Telescopic Arm Telescopic Boom Arm Grapple Tree

Our Product Introduction

for more products please visit us on excavatorlongarm.com

Basic Information

- Place of Origin: Guangdong Province, China
- Brand Name: Kaiping Zhonghe Machinery Manufacturing Co. Ltd
- Certification: CE, Patents, ISO9001
- Model Number: LSB009
- Minimum Order Quantity: 1 set / piece
- Price: USD 1099.00-USD8999.00
- Packaging Details: Bubble / Wooden cases
- Delivery Time: 5-25/works
- Payment Terms: T/T, L/C
- Supply Ability: 5 sets per week

Product Specification

- Key Composition: Wire Rope, Cylinders, Steel, Bearings, Sliders
- Excavator Models: 6ton - 60ton
- Length: 10m 15m 18m 20m 25m 28m
- Suitable Working Environment: Grabbing Wood
- Material: LG700
- Suitable Excavator Brands: Hitachi Komatsu Sany Kobelco Kato Etc
- Color: Customized, Red, Blue, Yellow Etc
- Warranty: 6 Months
- Application: Grabbing Trees
- Front Attachments: Grapple

Product Description

Introduction of Telescopic Arm for Excavator

Introducing our state-of-the-art **telescopic arm for tree grabbing** engineered to revolutionize the way you handle timber with unparalleled efficiency and precision. This innovative tool extends to reach trees at various heights, enabling operators to effortlessly grasp and lift branches and logs with ease. Designed for use in rugged environments, the **telescopic arm for excavator** is built from high-strength materials to withstand the demands of forestry work while ensuring maximum safety. Its user-friendly controls allow for smooth maneuverability, making it ideal for both professional arborists and landscaping enthusiasts. With our **telescopic arm**, managing tree-related tasks has never been more efficient or effective.

Key Features of Telescopic Wood Handling Arm:

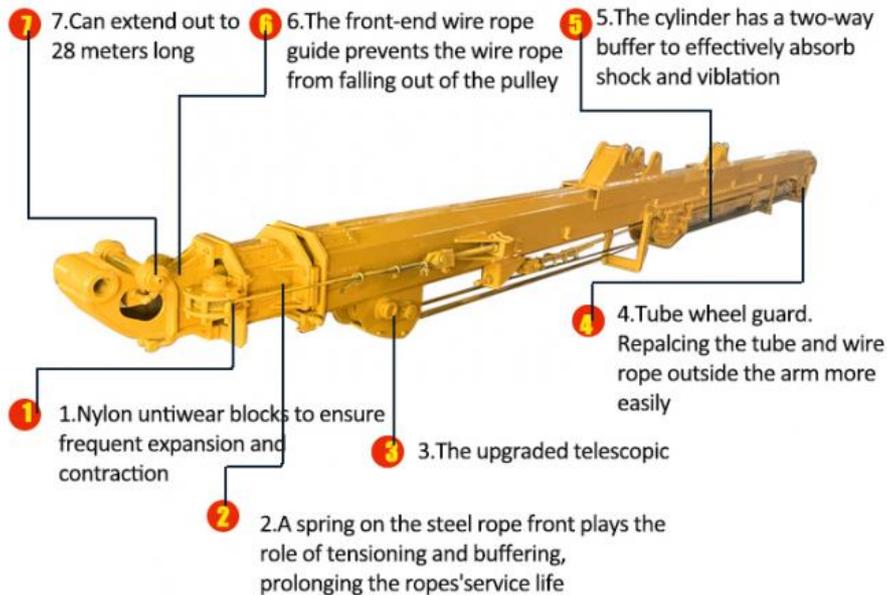

Adjustable Reach: The telescopic design allows for extended reach, making it ideal for grabbing logs and timber in various settings.

Robust Construction: Made from high-strength materials to ensure durability and reliability during heavy-duty operations.

Easy Installation: Quick-mount system compatible with various machinery, allowing for seamless integration.

Forestry Telescopic BOOM

Details Discription

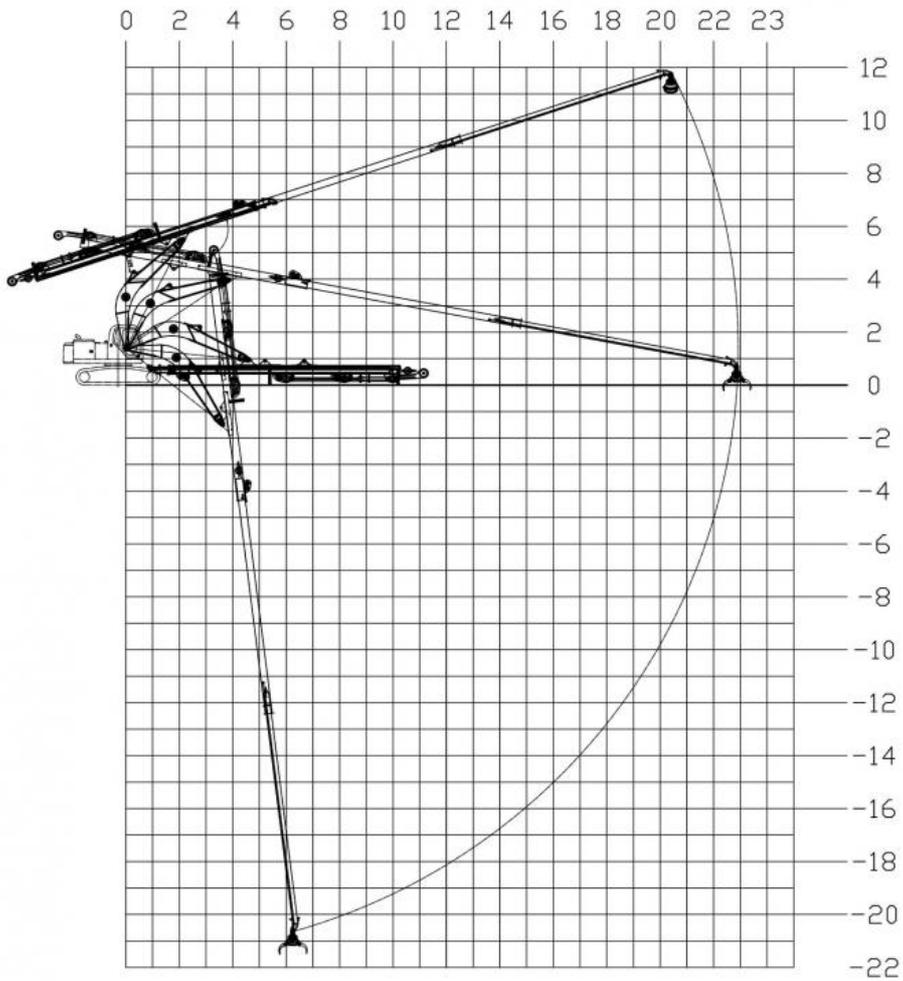

Market Demand of Telescopic Wood Handling Arm: The increasing need for efficient wood handling solutions in forestry, construction, and recycling sectors is driving growth in the demand for our telescopic timber grab arm.

Customer Feedback of Our Telescopic Dipper Arm Excavator: Users rave about the arm's efficiency and reliability, noting how it has improved their workflow and reduced manual handling risks. Many report significant time savings in their operations.

Applications of Telescopic Wood Handling Arm: Perfect for timber yards, construction sites, and forestry operations, our telescopic timber grab arm is the ideal tool for safely and effectively managing wood products.

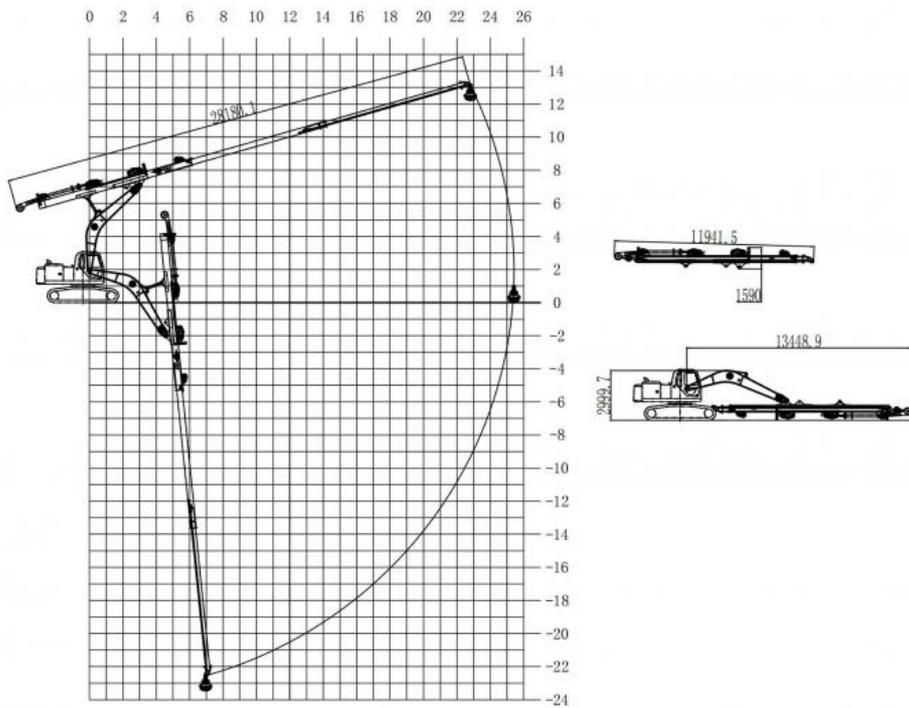

Excavator Model (ton)	Length(m)	Weight(ton)
10-15T	25M	2T
10-15T	28M	2.3T
18-20T	32M	3.5T

Welcome to send your excavator model to us for double check. Model drawing will be sent soon.

Introduction of Zhonghe Machinery's Advantages:

Double-sided boring lathe

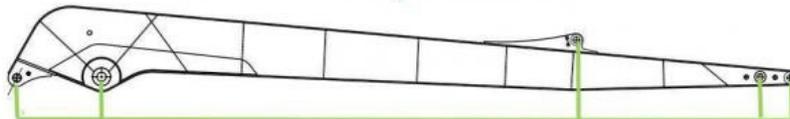

After the excavator boom and arm are assembled, the pins on the boom are drilled to ensure that the pins on the boom are parallel to each other and the cross section of the pin hole is perpendicular to the pin. The double-sided boring machine of the boom makes the hole position more accurate and the quality higher.

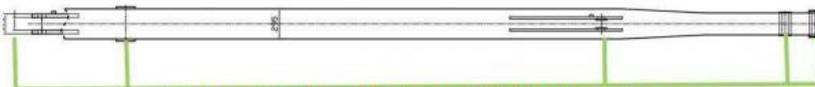

Make sure the cross section of the pin hole is perpendicular to the shaft.

Make sure the axis is parallel to the axis

Make sure the cross section of the pin hole is perpendicular to the shaft

Make sure the axis is parallel to the axis
