

## Telescopic Excavator Arm for Demolition — High-Reach, Heavy-Duty Excavator Boom

Our Product Introduction

for more products please visit us on excavatorlongarm.com

### Basic Information

- Place of Origin: Guangdong Province, China
- Brand Name: Kaiping Zhonghe Machinery Manufacturing Co. Ltd
- Certification: CE, Patents, ISO9001
- Model Number: SSB009
- Minimum Order Quantity: 1 set / piece
- Price: USD 199.00-USD8999.00
- Packaging Details: Bubble / Wooden Cases
- Delivery Time: 5-25/works
- Payment Terms: T/T, L/C
- Supply Ability: 5 sets per week

### Product Specification

- Material: LG700 / BS900E
- Front Attachments: Clamshell Bucket, Standard Bucket
- Excavator Model: 6 Ton - 200 Ton
- Digging Depth(m): 10m 12m 16m 18m
- Color: Customized
- Bucket Capacity: 0.4m3, 0.6m3, 0.8m3, 1.5m3, 2m3, 2.2m3

### Product Description

**Our telescopic excavator arm** equipped with both a standard bucket and a clamshell bucket delivers unmatched versatility for demolition, excavation, and material handling projects. Engineered for heavy-duty performance, the high-reach telescopic excavator provides extended working range and precise control while maintaining exceptional structural strength and durability. The standard bucket is optimized for general digging and trenching tasks, offering excellent breakout force and wear resistance. The clamshell bucket adds powerful, controlled grab-and-lift capability for bulk material handling, loading, and selective demolition work — reducing cycle times and improving site efficiency.

Our Product

Designed for easy attachment changeover and wide compatibility with common excavator carriers, excavator telescopic supports diverse jobsite needs without compromising safety or reliability. Advanced hydraulic tuning ensures smooth, responsive operation with minimized shock and vibration, extending component life and lowering maintenance costs. Built from high-grade materials and reinforced at stress points, telescopic dipper arm excavator complies with industry safety standards and is ideal for contractors, rental fleets, and construction firms seeking a single solution for digging, lifting, and demolition.

**Key benefits of Excavator Telescopic Arm with Standard Bucket / Clamshell Bucket:**

- Dual-attachment flexibility: standard bucket for digging + clamshell for precise material handling
- Telescopic reach for deeper and higher working envelopes
- Heavy-duty construction for long service life and reduced downtime
- Smooth hydraulic response for accurate, safe operation
- Quick attachment changeover and broad excavator compatibility

## Telescopic Arm

The front end is designed to be curved, greater digging force

Bearing part with multi-layer reinforced

The pivot end is reinforced with multiple layers to withstand greater excavation forces

The exposed bucket cylinder can be replaced without disassembling arm, which is convenient for maintenance

The reel adopts enlarged spring piece

Production Details of Telescopic Dipper Arm:

## Our production steps

## Our production steps

我们的生产流程比较明确，每一步都很严格！  
 主要分为三个制度。  
 1. 技术设计图审查机制，  
 2. 半成品审查机制，  
 (每道工序都有上一道工序的检测)  
 3. 成品检测。  
 (喷漆前进行整体检查，检查设计尺寸与焊接尺寸是否匹配，安装尺寸是否符合设计要求。)

综上所述，众合的每一件产品都经过了以上三级检查制度，确保合格后才能出货。

Our production process is relatively clear, and every step is very strict!  
 It is mainly divided into three systems.

1. The technical design drawing review mechanism.
2. The semi-finished product review mechanism.  
 (Each process has the inspection of the previous process)
3. The finished product inspection.  
 (Before painting, conduct an overall inspection to check whether the design size matches the welding size, and whether the installation size meets the design requirements.)

In summary, every product of Zhonghe has passed the above three-level inspection system to ensure that it can be shipped only after it is qualified.

#### 4. Certifications

## Feedback from Clients

from Jonson:  
the telescopic boom is suitable for digging caisson. excellent performance.

from Ryon:  
deeper digging depth. work effectively. nice service

from Ton:  
Very excellent telescopic boom. on my excavator suitably. very good job

from Cris:  
safe and balanced. premium excavator boom. perfect

WIA: +86 13822325403

#### Call to action:

Contact us for a custom specification and quote — tell us your excavator model, required reach, and project application so we

can recommend the optimal telescopic arm and attachment configuration.
