Two Section Telescopic Boom 10-27 Ton Excavator Hydraulic Two Section Telescopic Arm for Deep Digging Clamshell Bucket Attachment

Our Product Introduction

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: ZHONGHE
- Certification: CE
- Model Number: PC240
- Minimum Order Quantity: 1 piece
- Price: $9893/pieces
- Packaging Details: Bubble bag packaging
- Delivery Time: 20-30 work day
- Payment Terms: T/T
- Supply Ability: 50 Piece/Pieces per Month

Product Specification

- Product Name: Two-Section Telescopic Arm
- Quality: High-Quality
- OEM: Support
- Moving Type: Crawler Excavator
- Apply To: 10-27ton Excavator
- Material: Q355B/Q690D/HG785
- Warranty: 6 Months
- Condition: 100%New
- Color: As Customer Requirements
- Packing: Standard Packing
- After-sales Service Provided: Online Video Support

PRODUCT DESCRIPTION

Introduction of Two Section Telescopic Arm

Also known as a two stage hydraulic sliding telescopic arm, it mainly consists of a fixed section, a sliding section and a telescopic hydraulic cylinder. Driven by the hydraulic cylinder, it can adjust working length and digging depth freely. It is widely used in deep pit excavation, river dredging, foundation construction and pond cleaning.

Standard Configuration

1 set two-section telescopic boom, 1 digging bucket, 1 bucket cylinder, 1 linkage assembly, 9 pins, 8 high-pressure hoses, 1 bi-directional foot pedal switch.

Customization & Warranty

The boom, stick, hydraulic cylinders, hose reels and link assemblies come with a 6-month warranty, while buckets carry a 3-month warranty. We can tailor-make suitable arms according to different excavator tonnages and models.

PRODUCT ADVANTAGES

Advantages

1. Imported Korean spring for hose reel, service life double compared with domestic spring.
2. Double slider design for telescopic cylinder to reduce vibration impact.
3. Double layer sleeve for bucket cylinder hoses, easy hose replacement.
4. Reserved maintenance access for cylinder, convenient for disassembly and overhaul.
5. Better actual digging depth than competitors under same boom length.
6. New curved front end design with enlarged bucket cylinder for stronger digging force.

Maintenance Hole
Easy maintenance

Thickened Joints
Enhanced design to extend service life

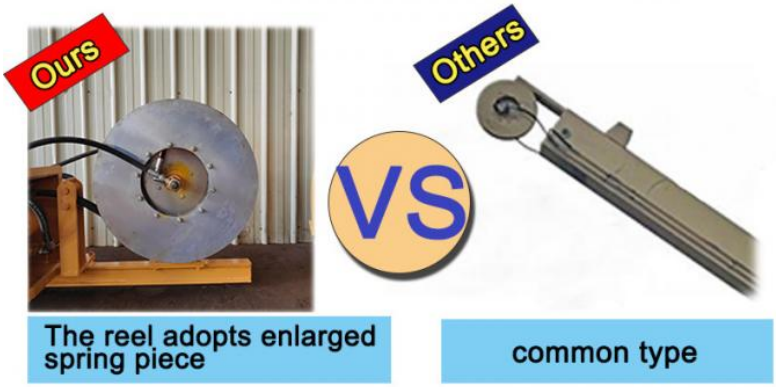

Cold-drawn seamless pipe

Each pipe is deeply cleaned, no impurities , better protection of the pipe

Differentiated from ordinary factories

Transportation

The telescopic arm of excavator can be placed flat on the ground when it is lowered, and will not exceed cab or be super high.

We are **Kaiping Zhonghe Machinery Manufacturing Co.,Ltd**, located in Kaiping, Guangdong — a fully integrated manufacturer dedicated to the research, design, production and global sales of excavator attachments.
Our modern steel-structure workshop is fitted with a complete set of advanced equipment, including CNC flame cutters, heavy-duty boring mills, plate rolling machines and stress-relieving facilities. This robust hardware guarantees reliable fabrication and enables us to handle large custom orders with consistent quality.
Supported by an experienced in-house engineering team, we adopt both 2D and 3D assisted design together with structural simulation and load calculation. With more than one hundred technical patents, we can validate every solution to perfectly match your excavator and site requirements.
Our comprehensive product portfolio covers sliding booms, long-reach booms, rock booms, demolition booms, excavator grabs, quick couplers and various buckets. This allows our overseas partners to source multiple attachments from one supplier.
We carefully select high-strength steel such as Q355B and Q690, and implement strict welding, non-destructive testing and load verification for every finished item. Before shipment, each product undergoes a full inspection to confirm performance and durability.
With export experience across more than sixty countries, we provide end-to-end technical support, detailed drawings, inspection photos and dependable after-sales service. Whether for dredging, deep foundation works, demolition or earthmoving, we deliver custom-built attachments to help your projects run smoothly.

ZHONGHE Product Advantages

1. Fashionable style
2.Professional Team
3.Quality control
4.Moderate price
5.CE certification
6.Promptly answer
7.Patented technology
8.Enrich production experience

ZHONGHE triple quality control system

1.The first system is the technical design drawing review mechanism.
2.The second system is the semi-finished product review mechanism.
(each process has a detection testing for the previous process)
3.The third system is the finished product testing.
(Before painting, the overall inspection is carried out to check whether the design size matches the welding size, and whether the installation size meets the design requirement.)
To sum up, every single ZHONGHE product has been passed the above three-stage inspection system to ensure that is qualified before shipping.

Accuracy Testing

Weld Bead Testing

Testing Before Send Out

Operation Testing

Post-welding Testing

CNC cutting
High precision CNC plasma cutting for steel plate blanking

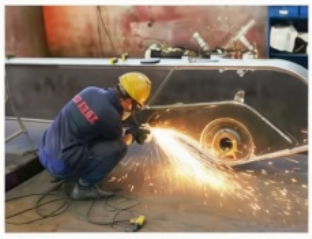

Edge milling
Edge milling and beveling for welding preparation

Bending
Steel plate bending with large bending machine

Assemble
Precision assembly and tack welding of boom parts.

Polishing
Grinding and polishing of weld seams and surfaces.

Spray painting
Sandblasting and spray painting for anti-corrosion.

OUR CUSTOMERS

Our products are stable used in Australia, New Zealand, Norway, Sweden, USA, Canada, Austria, Ireland, Britain, Malaysia, Philippines, Mauritius, Reunion, Kenya, Ecuador, Chile, etc

Certificates

Steel plates certifications

SHIPPING & PACKAGE

Package
Bubble bag packing for most products;
Wooden case for little products, like buckets;
Iron frame support fro boom arms.
The accessaries and package of excavator long boom arm are subjected to our final confirmation.

FAQ

1. Who are we?
We are based in Guangdong, China, start from 2018,sell to Southeast Asia(40.00%),Mid East(10.00%),North America(10.00%),South Asia(8.00%),Eastern Europe(8.00%),Oceania(8.00%),Eastern Asia(5.00%),Africa(5.00%),South America(4.00%),Northern Europe(2.00%). There are total about 51-100 people in our office.

2. How can we guarantee quality?
Always a pre-production sample before mass production;
Always final Inspection before shipment;

3.What can you buy from us?
Excavator Long Reach Boom,Excavator Telescopic Arm,Excavator Demolition Arm,Excavator Grapple,Excavator Bucket

4. Why should you buy from us not from other suppliers?
With more than 60 employees, it has its own unique research and development team in more than 10000 square meters of steel structure standardized plant. The annual production of ivarious of arms is up to 600 sets, and various of buckets are 6000 pieces.

5. What services can we provide?
Accepted Delivery Terms: FOB,CIF, EXW, CIP;
Accepted Payment Currency: USD, CNY;
Accepted Payment Type: T/T;
